Subject: Objection to the proposed route for interconnect cable in Portsmouth
Date: 01 October 2020 11:37:05

Dear Sir/Madam,

I object to the route you have chosen for the interconnect cable. I have seen the map and cannot agree with your choice of going through the allotments and destroying some of these most important Green Spaces in Portsmouth. Portsmouth has declared a Climate Emergency and we cannot afford to lose more of these valuable places. There are other better choices you can make. Our councillors are very concerned as well as you have not kept your word.

Please understand that Portsmouth needs Green Spaces.

Regards,

Viola Langley

I strongly object to Aquind' s plans which would mean huge disruptions for Portsmouth.I strongly object to the proposed route as Portsmouth is already under huge pressure. We cannot afford this. There are alternative routes and you should chose a less disruptive route.

I am strongly objecting to the interconnect cable in Portsmouth. There are many reasons why it should not be going the route you are suggesting. It will interrupt the city of Portsmouth, put pressure on resources, have an enormous influence on natural habitat, residents, the area and pollution of the city. Our town does not need this project and certainly not the route you propose. I ask you to reconsider this proposal of yours. Councillors and residents are against it. We live in a democracy where people's voices must be heard and taken into consideration.
