As a ward councillor for a small part of the line of the proposed route (Eastney and Craneswater) I would like to object to the proposal on the following grounds:

- The impact on traffic during the construction period
- The possible loss of land by the SSSI site where the cable comes ashore in Eastney
- The impact on the allotments at Milton

Taken together these issues are grounds for not approving the application. I don't know at this time what the examination process is or how many people wish to speak, but I would like to give notice that I would like to have the option to speak
