Legend

Order Limits

- Order Limits

Existing

- Access point
- Existing ground level contour
- Existing non-residential development
- Existing residential development
- Existing underground cable route
- Monarch's Way (ProW)
- Existing pylon
- Indicative existing overhead power lines
- Existing fencing
- Existing woodland
- Existing ancient woodland
- Existing native hedgerows
- Existing native hedgerows with hedgerow trees
- Existing grassland / scrub
- Existing scrub
- Existing National Grid mitigation planting
- Existing mature trees
- Existing arable farmland
- Existing pasture
- Existing recreation area
- Existing semi-improved grassland
- Bare ground

Proposed

- Proposed contours
- Proposed native hedgerow
- Proposed native hedgerow with hedgerow trees
- Proposed native mixed woodland (up to 15m)
- Proposed native mixed woodland (up to 25m)
- Proposed scrub
- Proposed scrub with scattered trees
- Proposed calcareous grassland
- Proposed marshy grassland
- Proposed attenuation pond
- Vegetated conveyance and infiltration swale (marginal planting)
- Proposed access road
- Proposed additional access road
- Proposed gate
- Proposed access point
- Proposed fence

Management of existing hedgerows

- Gap up through new hedgerow planting
- New hedgerow planting (to replace hedgerows grubbed out) with hedgerow trees
- Restrict removal of hedgerows and maintain at existing height
- Gap up with new hedgerow planting where necessary
- Restrict removal of hedgerows and maintain at existing height. Introduce new hedgerow trees where possible and gap up with new hedgerow planting where necessary

Notes:

- Lower planting heights may be required beneath overhead power lines. No new tree planting should take place within 30m of such locations.
- Existing landform contours presented on the plan are derived from two sources of information; a detailed topographic survey (which shows contours at .25m intervals) and a Lidar survey which shows contours at 1m intervals.
