---

I wish to inform you that I strongly oppose the planned Aquind Interconnector scheme which aims to lay a huge electric cable from France to Lovedean. The ever-changing plans now threaten protected wildlife species, green spaces, clean air, allotments and community projects.

There will be a huge amount of disruption to an already traffic-laden, polluted city. This affects all of us, if it goes ahead will affect the whole of Portsmouth.

It is unnecessary and unwanted by every local person I know.

Elizabeth Doyle
