**Subject:** regarding the plans and the virtual meetings that are taking place in December

Dear Sirs

I live in [REDACTED], Southsea, Portsmouth and have been very concerned about the proposed plans to pass a high voltage cable in front of my house since the first contact by aquind a year ago. The plans have been confusing throughout and I, as the rest of the residents in this street, oppose it for a large number of reasons.

The latest letters from you dated the 9<sup>th</sup> and the 11<sup>th</sup> of November advise of proposed changes that have been accepted. What are those changes? If you have agreed to allow this work to take place immediately in front of the houses in [REDACTED] then I and others in [REDACTED] need to know this and soon so that we can fight this. The effect on the health of people living so close to a high voltage cable concerns me primarily, but also the disruption, noise, pollution, and stress caused by such work. Such a high voltage cable should not be anywhere near houses and should not be planned to go through such a highly populated area such as Southsea. Such a high voltage cable should cross open land with no danger and disruption to anyone.

I work full-time but would like to have a say in an open meeting so request that you allow a friend and neighbour Viola Langley to speak on my behalf in one of the forthcoming open meetings.

I would be grateful if you would advise me if this is possible, what date and time will you give me and how long will Viola have to speak on my behalf?

Kind regards

Denise Moore
