Subject: Request to become an interested Party

Hi,

You are receiving this email because a user has submitted a request to become an interested party.

All the details provided by the user are as follows:

Section 102A of the Planning Act 2008

EN020022: AQUIND Interconnector

I am completing this form for myself

Details of person/organisation wishing to register as an interested party

Name: Kirsten McFarlane

Organisation Name (if applicable):

Email: [REDACTED]

Address Line 1: [REDACTED]

Address Line 2: [REDACTED]

Town/City: [REDACTED]

County: [REDACTED]

Post Code: [REDACTED]

Telephone Number: [REDACTED]

Contact By: email, post

Details of Land (if different from person's postal address)

Land 1

Address Line 1: all land included in the Aquind plans and my home address Address Line 2: [REDACTED]

[REDACTED]

Town/City: [REDACTED]

County: [REDACTED]

Post Code: [REDACTED]

Plot Number(s):

I am an owner, lessee, tenant or occupier of the land.

I have a legal interest in the land, i.e. have power to sell and convey the land, or to release the land.

If the order sought by the application is made and fully implemented, I am entitled to make a relevant claim form as a result of:

the implementing of the order,

the order having been implemented, or

use of the land once the order has been implemented.

Land 2

Address Line 1: Milton piece allotments

Address Line 2: Locksway Road, milton

Town/City: portsmouth

County: hampshire

Post Code: PO4 8LF

Plot Number(s): [REDACTED]

I am an owner, lessee, tenant or occupier of the land.

I have a legal interest in the land, i.e. have power to sell and convey the land, or to release the land.

If the order sought by the application is made and fully implemented, I am entitled to make a relevant claim form as a result of:

the implementing of the order,

the order having been implemented, or

use of the land once the order has been implemented.

Further Information

All of portsmouth city will be devastatingly affected by this development and all residents of the city are interested parties to the land in this project. As a resident I own a house which i bought in 2004. it is not in the immediate area of the plans but the project will drastically affect my life:

- drastically detrimental to my life including but not limited to ability to carry on my basic activities, shopping, working, my self employed business, house value, children's access to the educational sites.

- access to city facilities and roads,

- access to the allotment I have at milton piece,

- damage the local environment, recreation areas and wild life reserves

- damage my mental and physical health

As an allotment holder at milton piece, which I have had since 29th June 2020, I have invested thousands of pounds on structures and developing my plot, as well as a large investment of my time and energy ([REDACTED]) developing my plot. My allotment is essential to my well being and helps me manage my mental and physical wellbeing.

Subject: request to be accepted and represent as affected person

hello inspectorate team,

i have applied to be a person of interest, as i am an allotment holder renting an plot at milton piece (■■■). i am also a home owner with mortgage in portsmouth and believe that the aquind plans stand to devastate the city wide area, and beyond to love dean, affecting every aspect of day to day life, wellbeing, rights of access, right to flourish, right to live. it will destroy transport and environmental development which is already maxed out on this small island city. both for the development time (7 years) and long term maintenance (40-60 years?) both these times seem to be estimated and ever growing; along with the ever growing budget for this.

i have not had a response to my form for being an interested party. please do so.

additionally i also want to apply now for being recognised as an allotment holder in the yellow area of the milton piece allotments that aquind have mapped as being affected.

the letter from the allotment association said

“

If you are an allotment holder in the yellow or blue areas (especially the blue area)

on the map, you are entitled as an 'Affected Person' to write to the Planning

Inspectorate at aquind@planninginspectorate.gov.uk to, firstly, give your views on

the application in writing and ask for those views to be taken into account, and,

secondly, to be able to speak at any Open Floor Hearings (to be held virtually on 7-8

December 2020) and the Compulsory Acquisition Hearings (to be held virtually on 11

December 2020).

“

therefore, please add me as a spokesperson at all of the hearings upcoming and any future hearings as added.

I also want to note that my [REDACTED] to digest and respond to the inspectorates request for the council and aquind to fill out details by the 3rd of november, is surely a good example of how insane this whole examination is. or rather; how insane aquind are for pursuing it still.

this is in addition to my concerns about your request to aquind and portsmouth council 27th october 2020 (i am on the public email update mailing list from your website).

it states: "EN020022: AQUIND Interconnector Updates

Hi Kirsten McFarlane,

The Examining Authority has today issued two requests for further information:

- [Request for further information from the Applicant and Portsmouth City Council](#) (PDF 203KB) – responses due by Deadline 3 (3 November 2020);
- [Request for further information from the Applicant and National Grid Electricity System Operator Ltd](#) (PDF 160KB) – responses due by Deadline 5 (30 November 2020).

Both requests have been added to the [Examination Library](#) (PDF 771KB).

i am a bit alarmed that today i have been informed by a ' Lets stop aquind ' post of FB page, that the council are only having their update meeting at noon on the 3rd of november. the same day they are supposed to answer all the new inspectorate questions you have requested. this seems like an implausible task?; to me (as layman). none of us have time to read, absorb or respond to investigations within the very short time lines given.

i am sure aquind will use this as an excuse for them responding with more vague 1000 page diatribe responses; which have no founding in local reality.

i look forward to reading what both the council and aquind do respond on the 3rd of november. and i hope you will respect my requests to be both an interested party and 'affected party', and give me a voice at at least one hearing.

as such i also repeat my horror that aquind has managed to change their plans and are still changing their plans and routes, affecting new people, homes, allotments after february 2020 deadline for making objections, but you are not going to allow for the changes aquind have made since February to allow new people to object and be an interested party - including me!?

this is not acceptable and surely cannot be legal.?

i have tried to let as many people know that they can write to you to voice their objection. please, remember that the number of 'unprecedented objection responses' you got in october 2020, is only the tip of the iceberg. this is wrong.

its not your fault, i guess, that the city folk haven't been told or are unaware of the severity of the impact this will have on our city. i hope i can help make sure you get all the information you need to make a fare examination of this case.

as such i have tried to post publicly as far as i can, share the info, that everyone can be added to your public notification emails, and the above contact email info that the council also stated.

many thanks kirsten

Subject: Re: request to be accepted and represent as affected person

sorry inspectors: addendum:

- addendum 2:

actually; just to make it clear;

i think that ALL of the allotment is and should be included in the legal 'interested parties' on the 'ever changing, oh we promise you you wont be affected its all fine [REDACTED] but here is the actual graphics of our plans which tell another the storey from a different dimension...

ahem. sorry. mad (literally) artist allotment queen of plot protecting her land being upset by aquind here. soory. but i do mean it.

addendum 2: the yellow area shouldnt end on the main line in. this again demonstrates aquinds total lack of consideration. all of the allotments to the west of this path use the main lane throughout the allotment to access their plots, the central and only shop, the community council run allotment plot; which runs community classes.

there is also an artist on the main lane who runs community art sessions for disabled/special needs kids; opposite to my plot in the yellow area - but bizarrely not considered affected?????. This will be stopped if aquind pursue this path.

ALL of the allotment wont be able to access their plots during construction (7 years?) and what are these safety barriers.? do you mean, no access at all in the blue areas????n erm what? and yet post a new letter on gate saying oh, its fine it wont affect the allotment [REDACTED]even if underground (which i am glad the inspectorate are demanding aquind quantify...)

i have been told they will pump slurry through to check for leaks. i have stated in my objection letter that i am concerned that this slurry being pumped under the allotments in blue area will not only affect those allotments by surrounding area. who knows what leaks will be found. additionally 'leaks' you mean unsound ground. animal burrows. and what is the material make up of this slurry? will it harden to clay/cement? destroy the fertile ground of the allotments?

and yes, i sent it as addendum to inspectorate email too x

sorry another addendum:

addendum 3:

lol. interested party - not person of interest. ... ;; ;; ..
ya see!!! lol

this is what happens when [REDACTED] [REDACTED]
