To whom it may concern,

With regards to the tunnelling under Milton Piece Allotments or possibly digging a trench through the marked BLUE area, I am an affected person as my allotment is [REDACTED]. My wife and I have been working this plot for nearly 5 years we have put in a lot of time and money into developing the plot our shed and raised beds alone are worth quite a lot, the amount of vegetable's we grow throughout the year would be gone which would affect us financially as well. We are both retired and spend lots of time there which is excellent for our health, bodily and mentally. To potentially take this away from us would be devastating.

I would like my views heard at any meetings you intend to hold in the future.

Regards

Brian Simmons
