Subject: Aquind Public Consultation
Date: 07 December 2020 11:43:25

Dear Sirs,

There have been several public comments about the lack of public consultation by Aquind. I am the treasurer of the Waterloo Community Centre which is located in the main car park of Asda in Waterloo and I noticed a 'flapping' piece of paper attached to the Centre's fence. Naturally, I looked to see who had attached this document (which no-one else was taking any notice of) and was surprised to see it was an Aquind "Public Notice". A copy is attached for your information

This very poorly placed document seems to justify complaints made about the very poor level and quality of public consultations carried out by Aquind.

Kind regards

Cllr Judith Clementson

**SECTIONS 91, 92 AND 93 OF THE PLANNING ACT 2008
NOTIFICATION OF HEARINGS FOR AQUIND INTERCONNECTOR (PLANNING INSPECTORATE REFERENCE: EN020022)
RULE 13(6) OF THE INFRASTRUCTURE PLANNING (EXAMINATION PROCEDURE) RULES 2010**

NOTICE IS HEREBY GIVEN in accordance with Rule 13 of the Infrastructure Planning (Examination Procedure) Rules 2010, that hearings are due to be held by the Examining Authority for the Examination of the application made by AQUIND Limited (the 'Applicant') of OGN House, Hadrian Way, Wallsend, Tyne and Wear, NE28 6SL, for a Development Consent Order (DCO) under sections 35 and 37 of the Planning Act 2008 (the 'Application'). The Application was accepted for Examination on Thursday 12 December 2019 and the Examination commenced on Wednesday 9 September 2020. The Planning Inspectorate's reference number for the Application is EN020022. In light of the current public health situation due to Covid-19 these hearings will be held virtually as indicated below.

SUMMARY OF THE PROJECT

AQUIND interconnector (Project) is a new 2,000 MW subsea and underground High Voltage Direct Current (HVDC) bi-directional electric power transmission link between the South Coast of England and Normandy in France. By linking the British and French electric power grids it will make energy markets more efficient, improve security of supply and enable greater flexibility as power grids evolve to adapt to different sources of renewable energy and changes in demand trends such as the development of electric vehicles. The Project will have the capacity to transmit up to 16,000,000 MWh of electricity per annum, which equates to approximately 5% and 3% of the total consumption of the UK and France respectively.

The Application seeks development consent for those elements of the Project located in the UK and the UK Marine Area ('Proposed Development').

The Application seeks development consent for those elements of the Project located in the UK and the UK Marine Area ('Proposed Development').

The Proposed Development includes:

- HVDC marine cables from the boundary of the UK exclusive economic zone to the UK at Eastney in Portsmouth;
- HVDC onshore cables from Eastney to Lovedean;
- joining of the HVDC marine cables and HVDC onshore cables;
- HVDC onshore cables from Eastney to Lovedean;
- a Converter Station and associated electrical and telecommunications infrastructure at Lovedean;
- a Converter Station and associated electrical and telecommunications infrastructure connecting the Converter Station to the Great Britain electrical transmission network, the National Grid, at Lovedean Substation; and
- High Voltage Alternating Current (HVAC) onshore cables and associated infrastructure.
