Subject: Aquind project (interconnector)

I would like to put in a complaint about the Aquind project.

I live at [REDACTED] which will be directly effected by the project.

It has been such a mess from start to finish with them changing the goal posts with regards to the entrance to the site...

Recently following a zoom call with one of Aquinds representatives I was informed that they would be using the public footpath at the bottom of my garden where my [REDACTED] football often flies out of the garden to which he always goes and retrieves it.

Not only is this a dangerous proposition but is also a huge inconvenience to my family and the surrounding properties.

Originally Aquind were going to gain entrance to the site dead Opposite Day Lane which makes sense as would prevent the heavy machinery having to tackle the very sharp turn into the public footpath.

However it has since been recognised that there are some difficult water works to cross at the end of day lane , which I find to be some what worrying. If Aquind can pull pipeline through the ocean but cannot tackle a couple of water works what sort of company are we actually dealing with?

So without further a do I would like to first raise my concerns about [REDACTED] and his friends health and well being, alongside that the obvious disruption to my life and my neighbours lives. I am also concerned that a company such as Aquind cannot get over a couple of waterwork issues when conducting their business.

Regards

Kevin Flynn ([REDACTED])
