NEEDS AND BENEFITS SECOND ADDENDUM ERRATA SHEET

1.1.1.1.

This Errata Sheet details a minor error in the Needs and Benefits Second Addendum (REP7-064) and replaces Figure 1 (*Total Monetised Benefits of AQUIND Interconnector, TYNDP 2020 (€m/yr)*) of the Needs and Benefits Second Addendum which was incorrectly exported from Excel data and had cut off part of the legend when converted into pdf. Plate 1 below presents this data correctly:

1.1.1.2.

In order to assist the ExA, the figures have also been converted from euros to pounds using FX rate of 1.13. Where results of the indicators are not present, it means that they were not modelled by ENTSO-E.
