I would like to register that I am opposed to this plan.

This plan will subvert the councils own local plan for years causing huge disruption to this overcrowded city short of green space. All local elected bodies rejected this plan.

The question of how this scheme is going forward raises concerns of vested interest paying to get their own way and has been well documented.

Local opposition to this plan is growing and for good reason.

In the name of democracy and respect for local wishes to defend both their city and its scarce natural environment - and specifically at this moment of climate change and environmental degradation - I urge you to reject this plan

Thank you

Mark Sapsford
