Subject: Another objection to Aquind Interconnector
Date: 18 November 2021 22:27:47

To Mr Kwasi Kwarteng and other people involved,

I am writing to you to strongly object again against the Aquind Interconnector Project, as the decision about the project has been delayed yet again.

You have 2 more months to take the right decision. Two months to read other local people's objections that were written from the bottom of their heart, and which mentioned clear evidence that this project should not go ahead.

During these two months, I invite you to come to Portsmouth and see for yourself all the places that will be damaged by Aquind, all those beautiful havens full of protected plants and wildlife. Full of brent geese who are now resting in our peaceful shores after an incredible 2500 miles journey from Siberia. When Aquind comes and destroy Milton Locks and Milton Common, where will they go? When will we be able to see them and be amazed by the beauty of nature? How will I teach my son about these incredible birds if he can't see them any more?

Please come and see for yourself the beauty of Portsmouth and its very few green spaces that should no be damaged.

Then you will really know that you should STOP AQUIND, for the sake of our wildlife, our city, and our children.

I am looking forward to hearing from you.

Best wishes,

Mathilde
