---

I strongly urge you to reject the Aquind interconnector project. Apart from the immense damage to the environment and chaos that it will bring to our densely populated island :

1. The SoS asked for a cooperation agreement between PCC and Aquind. PCC does not want to work with Aquind but has to !! Can we challenge this?
2. Look at the floods in Portsmouth last few days. What if Aquind starts digging?
3. National Security risk and commercial telecommunication cable
4. Kwasi Kwartan can not be unbiased. There are 2 letters in which he openly supported the Aquind Interconnector
5. Pandora papers at BBC showing huge donations to Conservative Party , £ 1.5 million
6. Local authorities, all councillors and both MPs are against this scheme. Local democracy threatened ?
7. When we met Alan Whitehead , Shadow minister for energy and climate change he clearly indicated that the Aquind Interconnector is not needed. There are enough other interconnectors , already built or under construction
8. The French local government has rejected it.

Please reject this project  
Sally Codling
