Subject: Proposed Aquind interconnector - Objection - Reference 20025182
Date: 09 December 2021 10:14:25

As a Portsmouth resident I am writing to object to the proposed Aquind interconnector project :

- huge disruption to the City for no benefit to local residents
- destruction of an Internationally Designated Special Protection Area with no justifiable overriding public benefit
- questionable use of Compulsory Purchase Orders
- suitable alternative routes are available

Finally - due consideration must be given to the energy security of the UK. France has repeatedly used supply of electricity as a threat in unrelated negotiations - and this will simply give them even more ammunition.
