I have written to you , I have made my public speech, I am exhausted. But I will not relent.

No to any Aquind plans for our country

no to the destruction; flippant disregard and out right refusal to accept the landowner and constituents rejection of this hideous 'concept' of a proposal .... Why are you even considering this lunacy now ??? Absurd. Insulting and ridiculous.

Stop political games and save our lives and our planet you silly silly children of this earth. Please don't play ignorant that this is a bad for world choice. Say no. Please .

From the city of portsmouth. As it states: the home of the Royal Navy. Do no jeopardise this tiny but important island city

Yours sincerely kirsten
