Subject: Stop Aquind

Categories: Consultation Response

I'm writing to register my concerns over the Aquind project planned for Portsmouth.

The community HS already made our opposition to the plans in the past and the fact there's an appeal when facts have already been presented is depressing and it stinks of backhanders and corruption.

The links between Aquind boss, tycoon Alex Temerko and his friendship with Boris Johnson plus his generous donations to the Tory party says it all.

The land is fragile, previous dumping of Naval waste has exposed people to asbestos and heavy metals, a housing estate built there decades ago, made people ill.

Meanwhile there is nature and allotments that will be carved up.

For the second time I am writing to ask for Aquind to be stopped.
