Subject: Stop Aquind

Categories: Consultation Response

This plan will disrupt our city on an immeasurable scale and cause huge problems to all residents and wildlife, particularly on the East side of the island.

What i fail to understand is why this tiny island city has been chosen and even after Aquind have been previously turned down, myself and all other citizens of Portsmouth question why they have been allowed to appeal, especially when Aquind have donated £1.5 million to the Tory party.

This will cause years of heartache for the residents and will be ecologically devastating. Please help us

Regards

Tim Hornsey
