Subject: aquind's destruction of Portsmouth

Categories: Consultation Response

I wish to log my objection to the Aquind interconnector being brought into Portsmouth and destroying parts of our city. This is our city, our green spaces, our delicate shoreline, ours to enjoy. It was refused once for all the very good reasons. Portsmouth and its people gain nothing but loose so much. it is totally unacceptable that it should be allowed to go ahead for them to make vast profits and for us, residents of Portsmouth, to loose so much and to have to put up with so much damage, destruction, lose, pollution, to name but a few reasons why it must be refused. They can not be allowed to carve up our city!

Wendy Slee, a Portsmouth resident
