Subject: Stop Aquind!

Categories: Consultation Response

Has anyone from the Government Planning Inspectorate actually been to Portsmouth to look at what the Aquind people are planning to do to our city in order to lay this cable? If not then can I recommend that they do just that as soon as possible because the proposals for this venture are the most ill-guided and ridiculous piece of planning that could ever have been thought up. The wildlife areas involved and the disruption to the lives of everyone in our city would be absolutely devastating.

Surely someone with just a modicum of common sense should be able to see that these plans are just not feasible in any way ?

Carol Williams, a resident of Southsea.
