To whom it may concern.

I hereby submit my objection to the **Aquind** project.

Not only will this cause devastation to our green spaces and environment but I deplore any self centered politician who supports this project. The French are one of the most untrustworthy nations on this planet who throughout history have despised the English and constantly sought to have power over us. Put quite simply I wouldn't trust the French as far as I could throw one.

The same sentiment applies to all politicians and local government officers who are by their very nature corrupt!
