**Subject:** Stop Aquind

**Categories:** Consultation Response

I strongly object to Aquind's proposal, on the grounds that it will cause untold problems for the residents of Portsmouth and the local wildlife. For a long period of time, there will be upheaval with regard to traffic on the Eastern Road and surrounding area. Digging on the Milton Common site will unearth toxic waste and local wildlife will be threatened. I am outraged that this subject has been brought up again when it is so obviously against the wishes of the community.
