- Let's Stop Aquind
- Reject Aquind application
- I am against permission for Aquind

Dear Sir/Madam,

I have lived in Portsmouth for almost a year. I like this nice city and I was concerned to hear that project Aquind may negatively impact the local life.

I am against Aquind project because:

1. Aquind wants to build a big electricity cable between Portsmouth and France, which will take a long time to construct and cause a lot of disruption to the city.
2. The cable will go through green spaces and could destroy the habitats of animals and plants that live there, making it harder for them to survive.
3. People who use the green spaces, like gardeners and dog walkers, will have fewer places to go and enjoy nature.
4. The construction work will cause a lot of traffic and noise, making it difficult for people to get around and sleep at night.
5. People who live near the construction site could be exposed to dangerous chemicals, like asbestos, that might harm their health.
6. The cable will rely on nuclear power from France, which could make it harder for the UK to develop its own sources of green energy and become more self-sufficient.
7. The company that wants to build the cable, Aquind, has no experience in managing such a big project and has been accused of having ties to Russia.
8. The project could threaten national security, especially since it will be built in the home of the Royal Navy.

Please, do not give permission to destroy Portsmouth by Aquind.

Let's stop Aquind!

Sincerely,
