Subject: Stop Aquind

Categories: Consultation Response

I am completely against the Aquind pipeline. This plan is going to devastate the wildlife in Portsmouth. There aren't many green places left and it's going to ruin that. There are 3 routes out of Portsmouth, if this goes ahead living in Portsmouth will be awful, for years. It's going to be so disruptive. The fact that Aquind donated over 1.5million pounds over the last 2 years to the Conservative party is a complete and utter joke and shows just how much the government truly does not care as long as they're making money from it. This is so corrupt and completely unfair on the residents of Portsmouth and for the rest of the people effected by the route.
