Dear planning inspectorate,

I object to the plans for an electricity interconnector to be landed and built through Eastney and port sea island.

If this project is allowed to go ahead it will:

1. destroy and disturb rare ecosystems such as Eastney beach.
2. Disrupt and destroy housing and amenities throughout the eastern side of the island
3. Cause disruption, congestion, pollution and chaos during the building of the project

There appear to be no benefits to our community of this project but lots of downsides.

I am a resident of Southsea and I object to this project.

Richard Cowhig
