Categories: Consultation Response

To Whom It May Concern

I can't really believe that Aquind has once again raised it's ugly head and is being considered again.

I strongly object as this will affect our local area considerably and I don't really think it's positive claims will be realised.

It's time to put an end to this unwanted, unneeded and dangerous plan.

It's time to protect our environment, our local area and defend democracy.

It's time to stop Aquind!
