Subject: Aquid Interconnector Portsmouth

Categories: Consultation Response

Dear Planning Inspectorate

I am emailing you to voice my strong objection, to the proposed interconnector which is proposed to run through Portsmouth via Eastern Rd and Langstone Harbour. These proposals will cause chaos in the city and will also affect the thriving allotment community at Milton Piece and Hope Cottage. I am particularly concerned with the area of Langstone Harbour which is an area of SSI and the effect of this on marine wildlife will be fatal.

We do not want or need an interconnector in Portsmouth or surrounding area. Please, please, please turn down this application.

Yours sincerely
Sue Chatband
