Subject: Aquind Interconnector

Categories: Consultation Response

I strongly OBJECT to the proposed interconnector due to -

Devastation for wild life on land and sea

Major disruption along the preposed route and take years to replace if ever

It is cutting through Playing Fields ,Landfilled Site, Wildlife Areas, and One of only Three Roads out of Portsmouth

Going up Portsdown Hill through a narrow built up area road next to a School

Then on to Purbrook which has narrow road and is the only Bus Route to the Hospital and into Portsmouth (Number 8)

This Project is a PAY BACK for the MILLIONS OF POUNDS given to The Conservative Party and its MPs

THIS MUST BE STOPPED

Regards

Alan Harland
