Subject: Objection

Categories: Consultation Response

With reference to this proposal for Aquind.

We as a family thoroughly oppose this proposal .

Here in Portsmouth we are very densely populated "Island" with only 3 routes into the city. Portsmouth is already 4th worst congested city in the UK.

The impact this proposal will cause will be devastating right across the area to businesses and delivery firms !. Plus families going about their everyday lives.

It will make a huge impact on the wild life that we have ,which includes the world renown Marshes that are of scientific value . affecting the migratory birds .

Toxic waste will be exposed on Milton Green ,that in turn will effect the allotments in the vicinity. Causing untold damage to us all if this toxic waste is exposed !.

The closure of green spaces that are used for recreation causing untold mental well being damage.

This project is also not wanted by 14 Mayors in France and has been rejected from the area where the Aquind Interconnector is planned.

Aquind lost its appeal for status as Project of Common Interest already.

It is very questionable why so many donations (£1.5 million) by Aquind or its owners to political parties and MPs ?.

We all need to be listened to on our objections to this project . The devastation this project is going to bring to the lives of the people of Portsmouth and our surround areas .

Mr & Mrs JA Downing,
