Subject: Stop Aquind

Categories: Consultation Response

Please stop. It's not your city to destroy. Your aquind plans will ruin areas where wildlife is currently accessing and calling their home.

It will cause areas in our city to become building sites, destroy the homes of numerous animals and insects and with portsmouth being an already densely populated city the negative impact on residents and traffic is too great.

The plans run through green spaces, wild life areas and ends in a national park.

Aquind needs to be stopped and I strongly oppose these plans. It ends NOW.
