Subject: Milton Allotment

Categories: Consultation Response

Dear Sirs

I have an allotment at Milton and object strongly to the proposed plan for the Aquind interconnector. It's a very beautiful space, with mature fruit trees and it's a place of natural beauty. It's so quiet and natural and it's taken years to create this Space away from the busy city centre. It feels so unjust for a huge corporation to come in and destroy the land on which we have worked so hard.

Regards
