Subject: Stop Aquind!

Categories: Consultation Response

To whom it may concern,

Self sufficiency should be the way we are choosing to go right now with future fuel supplies, especially after the chaos caused by the war in Europe.

We should not be accepting the underhand bullying tactics of a foreign company of assorted investors, who wish to disrupt and destroy large parts of our City for their own personal gain.

In their sly and aggressive conduct so far, there has been no consideration of the views of the proud and caring people of Portsmouth.

We love our City.

PLEASE SAY NO TO AQUIND!
