I am writing to make you aware of my objections to the above project.

This will cause immense strain on the people of Portsmouth, with massive disruption on one of only three routes into the city.

Also huge swathes of our limited green space will be dug up for years, with the possibility of releasing Toxic waste as one of the route sites is an historic landfill site.

The eastern road will be paralyzed with traffic and as any residents of Portsmouth will tell you ,if one of the of the roads into the city is blocked for any amount of time, Then the whole city becomes gridlocked.

All this is being reconsidered so Two Russian oligarchs can get even richer!!!

The electorate in this city have already had Thier say once about this ridiculous plan TRY listening to the people for ONCE and throw out this proposal again.
