Subject: Stop Aquind

Categories: Consultation Response

Dear Sir/Madam,

Having read Penny Mordaunt's letter opposing the Aquind interconnector scheme this morning, I am writing to register my opposition to the scheme.

The project will cause a huge disruption to the City's commercial life and holiday season for a negligible improvement to the country's energy requirement. Surely, there is an obvious need to develop solar and windfarm alternatives for a fraction of the cost of electricity derived from the Aquind scheme.

John E Doyle,
[REDACTED]
