Subject: I object

Categories: Consultation Response

To Whom it May Concern,

I object to the development of the Aquind proposal.

I believe it will degrade the land, destroy and deter wildlife, bring congestion, create a significant increase in air pollution, deter regeneration projects in the city, bring years of unwanted and unnecessary construction works to the area.

There appears to be no benefit of the scheme to local residents, the main beneficiaries to be the owners of Aquind.

This is absolutely a time to PROTECT natural habitats, REDUCE pollution, work together as a COMMUNITY to care for our area.

I have grave concerns about this project and along with thousands and thousands of others in Hampshire and in France and will object until the plans are completely scrapped.

Thank you for reading this and registering this objection.

Mrs. A. Ashworth
