Subject: Objection to Aquind

Dear Sir/Madam,

I am writing to object to the Aquind interconnector project. It is not what is best for the nation and it is emphatically wrong for Portsmouth. As a city with considerable air pollution and precious little green space, we should cling to the natural environment that we have. The project represents a threat to national security and reports of cronyism voiced in publications such as The Sunday Times do not inspire confidence.

Overall, and in the interests of both the area and the nation, please don't approve this project.

Kind regards,
Laura Burden
