Dear Sir/Madam,

I would like to let you know that I totally object to the Aquind Interconnector. I am very concerned about the effect on Portsmouth, my concerns include the effects on our environment, the disturbance and destruction of wildlife, the disturbance of toxic waste buried under Milton Common (which includes asbestos) and the effects of pollution caused with the construction involved. We are a very densely populated city and need to look after our green spaces and not be disturbing and threatening them. Also any road closures due to the construction will have a huge impact on Portsmouth as we only have a limited number of routes on and off the island. This is something that should NOT be allowed to happen. Please do not allow this to happen. We have to think about the effects on people and wildlife.

Yours sincerely

Tracey
