Subject: Objection to Aquind Interconnector
Date: 19 June 2023 22:24:36

Good Evening,

I am emailing to register my objection to the Aquind Interconnector that has been proposed to go through the East Side of Portsmouth.

I object to it on the grounds of the environmental damage it will do to flora and fauna. Milton nature reserve and Farlington Marsh could be severely affected and as Portsmouth is a compact city, any green spaces are much needed for people and nature.

Also, there is the disruption it will cause and Portsmouth doesn't cope well because there are only three main routes through and if one is held up, then there are jams leading to more pollution from idling cars, vans and trucks.

I understand that there is already or will be enough capacity without it , so why go ahead?

These are some of the issues, there are many others but opposition is high in and around Portsmouth. We do not want it so please reconsider Aquinds proposal and refuse it.

It would be better for our quality of life at a time when there is not a lot to be happy about.

Yours Sincerely

Roger Ackland
