Subject: Aquind objection

I am very strongly against this project. I have been looking at the damage which it will cause and cannot see why we should want to have it in our city. It will do harm to our environment to our people and to our energy security.

France does not want it, England does not want it. You must make sure that it is stopped and stopped for good.

I have lived in Portsmouth for many years and as an [REDACTED] allotment user feel threatened by your plans to damage a very vulnerable location. The same thing applies along the route.

Why should we have this absurd Project? It does no good to us - it only does good to the company who own it.

It must be stopped. Thank you.

Sydney Dooley

Why do we have to keep sending in objection's, do you just keep throwing all these objections away, hoping we'll all go away, WELL NO CHANCE !! It seems to me you are all behaving like little children trying to get their own way, not taking NO for an answer. WE don't want or NEED your [REDACTED] interconnector
