Please accept this as a formal OBJECTION to the aquind proposal.

My objection is on the basis of the route landing at Eastney beach and running through the city.

Clearly ridiculous since it could easily carry on pass this land point and up the Langstone harbour water way, Casio g no disruption, less cost and a more direct route to the nearest national grid inject point.

The proposed landing point will cause huge completely unnecessary disruption, and pass very close to protected areas, and residential zones.

This is a belligerent and unjustified route by bully boy tactics.

That the city council and all its political parties along sid Eth majority of the city and external consultants are united in their opposition is worthy of consideration in itself.

Object to this questionable financially project.
