I want to register my objection to the Aquind in Eastney.

Apart from damage and disruption it would cause to the area it is leaving UK open to threats of France cutting off power whenever any disputes arise.

This project is strongly opposed by most of the people who live in Portsmouth and our MPs.

Going on this governments record I am concerned that some member of the government would probably make a lot of money if the deal went through.

Please do the decent thing and think of the people of Portsmouth.

CANCEL AQUIND!!!!
