Dear Jake,

Please find below a link to Portsmouth News today, 3.11.2023 which highlights the severity of gridlock and congestion on Eastern Road. Eastern road needed to be closed after a sewer burst. This caused a lot of havoc in the city.

The residents are very much aware of the situation of gridlock, congestion and increased air pollution day in day out.

Eastern Road cannot be even partly closed over a longer period of time. This would mean even more gridlock, congestion, increased air pollution, delays, effects on mental and physical health of residents etc....

We, LSA, have highlighted this matter repeatedly in our submissions opposing the Aquind Interconnector.

Please add this email to our correspondence.

Many Thanks,
Viola Langley
