Dear SoS,

Please find below Let's Stop Aquind's open letter addressed to you, Jeremy Hunt and Grant Shapps.

We trust you will find time to consider the content.

<https://the.organise.network/campaigns/network-it-s-time-to-stopaquind-0ef6658793b2bb03>

Dear Mr Sunak, Mr Hunt and Mr Shapps,

The duty of government is to act on the will of the people, defend its citizens and protect democracy. While the threat of the Aquind Interconnector hangs over the people of Portsmouth, you are failing on all counts.

Surely you know by now that our city is united against this dangerous project? From the allotment holders whose plots are vulnerable to drilling chemicals, to the businesses whose livelihoods will be threatened by gridlock from construction chaos, from the children who will be exposed to the pollution from years of tearing up our city, to the sports teams whose pitches will be closed for building sites, from the property owners whose homes are blighted by the route, to the dog walkers who will see Portsmouth's precious green spaces dug up and fenced off... we reject the vandalism of our city for private profit.

Aquind's plan would be devastating for our delicate marine and shoreline wildlife, such as 20 species of waders and the Brent Geese that winter here from Siberia. Laying the cables would also disturb significant amounts of toxic waste buried under Milton Common, threatening families living alongside the route with asbestos. The previous Secretary of State found that the damaging impacts on our city and environment could not be justified by any benefits, so what reason can there be to change his decision?

54 Open letter to Prime Minister Rishi Sunak, Chancellor Jeremy Hunt and SofS Grant Shapps – It's time to #stopAQUIND <https://the.organise.network/campaigns/network-it-s-time-to-stopaquind-0ef6658793b2bb03>

Community action to stop the AQUIND interconnector  
[www.stopaquind.com](http://www.stopaquind.com)

It's time to put an end to the fake promises of cheaper and greener electricity, made by a company that has already been granted exemption from pricing regulation, which relies on an abundance of French nuclear power - but France says no to Aquind and now needs its power for its domestic market. It's time to practise what you preach, and invest in sustainable energy projects on our own shores, not put our security at risk by relying on Soviet-born oligarchs to develop critical infrastructure in the home of the Royal Navy.

We demand protection from the activities of this highly unusual and opaque company: a company with no experience that claims to be able to manage a £1.3 billion cross-channel project; a company with substantial offshore funding but no trading income; a company that proposes an electricity cable but hides a communications network within it; a company whose owners seek to intimidate the press while making threats to a Portsmouth MP.

Aquind's money and influence have gone to the very heart of the Conservative Party. One of its owners boasts of his influence on your party leadership, while the Prime Minister and Chancellor are amongst those that accepted donations from the company or its owners. It's time to return this money and remove the stench of cronyism from the Conservative Party's relationship with Aquind, an odour that threatens your own reputations.

It's time to put an end to this unwanted, unneeded and dangerous plan. It's time to protect our environment, stand up to oligarchs and defend democracy. It's time to stop Aquind.

Viola Langley
