Hi Jake,

Here is a screenshot of the horrendous traffic incident we had last week here in Portsmouth. A sewer pipe burst and there was a traffic accident. It shut down the traffic for many hours on the day and had an after effect till Monday this week. It shows clearly that our city and surroundings cannot cope with any construction work of the scale of the Aquind Interconnector, not even just for weeks or months if not longer.

Many Thanks,
Viola Langley
LSA
