You don't often get email from [REDACTED] [Learn why this is important](#)

To whom it may concern,

I am once again emailing my complete objection to the Aquind project that is planned for the Portsmouth area.

It is my belief that Portsmouth and the surrounding area would not be able to cope with the disruption that a long-term project like this would involve.

Portsmouth is the most densely populated city in the UK. Currently there are problems with the sewer infrastructure, leading to road closures which has brought chaos on the roads into the city.

The Aquind project would bring even more disruption for years.

I am extremely concerned about the impact on local wildlife, both resident and migratory. Allotments and areas around Milton Locks are vital habitats, along with the Common and Farlington Marshes being an important refuge. This project would inevitably have a negative impact.

Please discontinue this scheme.

Thank you

Rebecca Ellcome
