Walkover Tree Surveys for key areas of the Project have been carried out between August 2021 and August 2022. In areas where no tree survey data is available due to access restrictions or where areas fall outside of the agreed arboricultural study area, Ecology Phase 1 hedgerow data and/or National Tree Map data (provided by Bluesky International Ltd) has been utilised to provide indicative information on tree features.

Further information is included within the Arboricultural Impact Assessment Report (Volume 5, Document 5.3.31).
