Subject: Feedback from Open Floor Hearing, Wed 22 March 23

I spoke at the open floor meeting last week about being unhappy about the siting of one of the pylons on our land connected to the Overton Lane sub station.

I know our representative has raised issues and has been told that there is a technical reason why the pylon in question cannot be adjusted; she is waiting for a response in writing before finally passing on the information to us.

We also raised a query about the entrance to [REDACTED] which was mentioned at the meeting; I understand this is not something National Grid can undertake either, though it must be understood that at times, for example harvest, when time is critical, we cannot afford to have our equipment delayed either entering or leaving the site, and at other times it must be appreciated that should we be loading or unloading goods that the route may not be passable at those times.

We did ask National Grid to share details of all surveys and digs undertaken on our land connected with pylons or the compound. To date we have not received any feedback.

Thank you for your time

Marion Blacker
