Points to Note

The following section of this cover letter confirms National Grid's position in respect of items that the ExA requested to be submitted at Deadline 3 as per the Examination Timetable in the Rule 8 letter (dated 29 March 2023) and any other points to note in respect of Deadline 3.

Statements of Common Ground and Statement of Commonality

National Grid has provided an updated version of the following Statements of Common Ground at Deadline 3:

- Statement of Common Ground between National Grid and North Yorkshire Council
- Statement of Common Ground between National Grid and City of York Council
- Statement of Common Ground between National Grid and Leeds City Council
- Statement of Common Ground between National Grid and National Trust
- Statement of Common Ground between National Grid and Network Rail Infrastructure Limited
- Statement of Common Ground between National Grid and EE Limited and Hutchison 3G UK Limited

The Statement of Commonality provides a full update on the status of those Statements of Common Ground which have not been submitted as an update at Deadline 3 but which have matters outstanding. Discussions between National Grid and the respective Stakeholders are continuing and it is intended that updated version of the outstanding Statements of Common Ground would be submitted into the Examination at Deadline 5 when next requested by the Examination timetable.

Comments on Responses to Examining Authority's First Written Questions (ExQ1), Written Representations and other Interested Parties' Deadline 2 Submissions

National Grid has sought to provide comments where it is helpful to do so, for instance where an Interested Party's representation includes a request for further information or clarification from National Grid, or where National Grid considers that it would be appropriate for the Examining Authority to have National Grid's views in response to a matter raised.

Where issues raised within a representation have been responded to previously by National Grid, for instance in response to a question posed by the Examining Authority or within one of the application documents submitted to the Examination, a cross reference to that response or document is provided to avoid unnecessary duplication. The information provided in this document should, therefore, be read in conjunction with the material to which cross references are provided.

National Grid has reviewed all Deadline 2 submissions made by Interested Parties, but has not provided comments on every point made if it was not deemed necessary. For the avoidance of doubt, where National Grid has chosen not to comment on matters raised by Interested Parties this is not an indication that National Grid agrees with the point or comment raised or opinion expressed.

Should you require any hard copies of the documents identified above please let us know.

Yours faithfully,

Emer McDonnell
