Version History

Date	Version	Status	Description / Changes
01/10/2022	A	Final	First Issue
10/05/2023	B	Final	Second issue following Examining Authority's Written Questions EXQ1
<u>06/09/2023</u>	<u>C</u>	<u>Final</u>	<u>Third Issue: Updates made to review any new development that needs to be considered in the CEA prior to close of the Examination.</u>

1. Cumulative Effects Assessment Long List of Other Developments

Page intentionally blank

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
1	20/04550/FULMA J	Harrogate Borough Council	Employment development for Class E and/or B2 and/or B8 uses, on 5 separate plots along with access (pedestrian and vehicular), parking, landscaping and associated works following demolition of existing redundant buildings. 5 ha	Land at Marston Business Park, YO26 7QF		3.5km west	Permitted - 11/06/2021	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. The village of Tockwith lies between the development which is on a former airfield and the Project. There is one SSSI 4.5km from the Project, 2.5km from the development therefore cumulative biodiversity effects (Aubert Ings SSSI) unlikely.		No
2	19/01734/FULMA J	Harrogate Borough Council	Mulgrave Developments Ltd Erection of 63 no. dwelling houses; Conversion of 1 no. agricultural building to form 1 no. dwelling house; Demolition of agricultural buildings. 2.3 ha	Land North Of Westfield Road Tockwith Yorkshire YO26 7PY		2.6km west	Permitted - 16/10/2020	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of	yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development	Marston Moor Registered Battlefield.	
3	18/04528/FULMA J	Harrogate Borough Council	Bellway Homes Full planning permission for the erection of 39 dwellings and associated access, landscaping and infrastructure. 1.43 ha	Scrubland And Disused Runway At 446456 451983, South Field Lane, Tockwith, North Yorkshire		3km west	Permitted - 08/01/2020	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of Marston Moor Registered Battlefield.	yes
4	18/04529/FULMA J	Harrogate Borough Council	Paul Thornton Formation of attenuation basin and access; Associated landscaping and minor works. 1.19 ha	Scrubland And Disused Runway At 446456 451983, South Field Lane, Tockwith, North Yorkshire		3km west	Permitted - 27/06/2019	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of Marston Moor Registered Battlefield.	yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
5	17/04919/FULMA J	Harrogate Borough Council	Linden Homes Erection of 74 dwellings with associated access, public open space, landscaping and play area 2.93 ha	Land Comprising Field At 446635 452142, South Field Lane, Tockwith, North Yorkshire		3km west	Permitted - 23/01/2019	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of Marston Moor Registered Battlefield.	yes
6	17/04866/FULMA J	Harrogate Borough Council	Loxley Homes Ltd Demolition of existing buildings and erection of 11 dwellings with formation of associated access and landscaping (Revised Scheme). 0.5 ha	Land Adjacent To C And G Interiors Unit 8 Goughs Yard, Moor Lane, Hunsingore, Wetherby, North Yorkshire, LS22 5HY		6.6km west	Permitted - 08/04/2019	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
7	18/05322/OUTM AJ	Harrogate Borough Council	Mr Rupert Foster Outline planning application for the erection of 25 dwellings. 1.13 ha	Highfield Tom Cat Lane Bickerton LS22 5ES		3.8km west	Refused - 27/02/2020	1	Historic environment , landscape, biodiversity, socio-economics, health	Scope out: Development within village of Bickerton. Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development		No
8	18/01802/OUTM AJ	Harrogate Borough Council	Centre Park Properties Limited Outline planning permission for mixed use employment development (Use Classes B1c, B2 and B8) for up to 12,000sqm with access into the site considered. 6.7 ha	Land Comprising Field At 445299 452534, Tockwith, North Yorkshire, : YO26 7QF		3.6km west	Permitted - 02/05/2019	1	Historic environment , landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of Marston Moor Registered Battlefield.	yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
9	17/05390/OUTM AJ	Harrogate Borough Council	D Noble Ltd Outline planning application with all matters reserved for the erection of 21 dwellings off Turnpike Lane, including 8 affordable homes and 1 village shop. 0.93 ha	Land Comprising Field At 445125 450413, Turnpike Lane, Bickerton, North Yorkshire,		3.8km west	Permitted - 26/09/2018	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Development within village of Bickerton. Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development		No
10	18/04395/REMM AJ	Harrogate Borough Council	Bellway Homes Limited (Yorkshire) Reserved matters application for 80 dwellings with appearance, landscaping, layout and scale considered under outline permission 15/02228/OUTMAJ.	Scrubland And Disused Runway At 446456 451983, South Field Lane, Tockwith, North Yorkshire		3km west	Permitted - 28/06/2019	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. This plus intervening distance, topography, vegetation indicates limited potential for significant cumulative setting, landscape or visual effects. No designated ecology sites within 2km of development	Although significant cumulative effects are unlikely further consideration is required to identify if there is the potential for cumulative effects on setting of Marston Moor Registered Battlefield.	yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
11	18/01532/FULMA J	Harrogate Borough Council	Strata Homes Erection of 62 dwellings and associated works. 2.47 ha	Land Comprising Field At 446184 456825 Yule Lane Green Hammerton North Yorkshire		5.3km west	Permitted - 14/06/2021	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Closest part of Project is works around Moor Monkton, limited potential for setting, landscape, visual effects given distance and intervening topography, vegetation. No SSSIs within 2km of development.		No
12	21/01302/FUL	Hambleton District Council	Development of 12 affordable dwellings 0.68 ha	Land off and to the south of Station Court, Tollerton. 451520 (Easting), 464346 (Northing)		6.2km north-west	Application validated 11/05/2021 - awaiting decision	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Limited potential for cumulative environmental effects in terms of landscape, visual or setting effects due to intervening distance, topography and vegetation. A19 and East Coast Mainline (ECML) Railway forms part of landscape and likely to form screening between the development and Project - closest element of Project is works to 2TW/YR route. No ecological designations between Project and development		no
13	20/01004/FUL	Hambleton District Council	Construction of an additional free range egg laying unit of dimensions 127.5m x 20.8m, with an eaves height of 3.7m and a ridge height of 6.528. The development includes additional infrastructure of	Audby Manor Farm Audby Field Road Shipton By Beningbrough North Yorkshire		780m west	Permission Granted - 19/08/2020	1	Historic environment, landscape, biodiversity, socio-economics, health, hydrology,	This development comprises a southwards extension of an existing agricultural building to the north of Shipton by Beningbrough		yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
			2 feed bins, and an attenuation pond for surface water drainage. Site: 1.00 ha, Gross new internal floorspace: 2652 sq. m (Other)	YO30 1AA 455628, 459489					agriculture, air quality	located east of an existing PRow between Shipton and Shipton Moor. Closest elements of Project are construction compounds and CSECs at Shipton.		
14	19/00055/FUL	Hambleton District Council	Construction of a free range egg unit and associated egg packing building and infrastructure. Site: 2.3 ha. Total gross new internal floorspace 2940 sq. m (Other)	Land North East of Highfield House (Vicarage) YO301AA, 455369, 459111		780m west	Granted - 01/08/2019	N/A	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: This has now been built (building shown on google earth aerial mapping). It forms the northern building referenced in application 20/01004/FUL - that application proposes another similar building adjacent to the south of this development.		no
15	18/00648/FUL	Hambleton District Council	Siting of 6 No. agricultural buildings for poultry production, with associated gate house, boiler house, feed bins, hardstanding's, access and drainage attenuation pond. Site: 4.80 ha. Total gross new internal floorspace proposed: 16,912 sq. m	East Tollerton Farm YO61 1RA 452781, 464318	The construction phase of the proposed development will extend to approximately 26 weeks. The proposal is a permanent development and the estimated design life of the buildings is in excess of 50 years.	5.2km north-west	Granted - 20/07/2018	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Limited potential for cumulative environmental effects in terms of landscape, visual or setting effects due to intervening distance, topography and vegetation. A19 forms part of landscape character between development and Project - closest element of Project is works to 2TW/YR route. No ecological designations between Project and development		No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
16	17/02609/FUL	Hambleton District Council	Construction of a pulse processing facility with associated site office, weighbridges, hardstanding, parking areas and attenuation pond Site: 2.20 ha Total gross new internal floorspace proposed: 4,163 sq. m	Shipton Grange Chapmans Lane Shipton By Beningbrough North Yorkshire YO30 1AP 454411, 459916		2km west	Granted - 02/05/2018	1	Historic environment, landscape, biodiversity, socio-economics, health	Scoped out: Comprises the replacement of existing agricultural buildings (no visual/landscape change) and development is also enclosed by existing buildings/vegetation.		No
17	19/02603/REMM AJ	Harrogate Borough Council	Loxley Homes Limited Reserved matters application for the erection of 80 dwellings with Access (within the site), Appearance, Landscaping, Layout and Scale considered pursuant to permission 17/01446/OUTMAJ	Land Comprising Field At 446321 456601 New Lane Green Hammerton North Yorkshire		5.3km west	Permitted - 11/03/2021	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Closest part of Project is works around Moor Monkton, limited potential for setting, landscape, visual effects given distance and intervening topography, vegetation. No statutory nature conservation designations within 2km of development.		no
18	2019/0711/S73	Selby District Council	Section 73 application to vary condition 10 (vehicle access) of application 2016/0715/FUL granted 20 September 2016 for proposed installation and operation of a solar farm and associated infrastructure, including photovoltaic panels, mounting frames, inverters, transformers, substations communications building, access tracks, fencing, pole-mounted CCTV cameras and composting WC without complying with conditions 9 (accesses),	Ash Row Farm Bishopdyke Road Sherburn In Elmet Leeds LS25 6JJ		4.5km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant		No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
			10 (vehicle access) and 16 (drawings) of approval 2015/0777/FUL granted 3 February 2016							cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed development are unlikely. There are no designed ecology sites within 2km of the development. Closest site east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects and therefore significant ecological effects are also unlikely.		
19	2019/0325/FULM	Selby District Council	Proposed erection of 124 dwellings with open space and associated infrastructure following demolition of existing buildings	Brownfield Site 2 Leeds East Airport Busk Lane Church Fenton Tadcaster North Yorkshire		5.7km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out: Leeds East Airport is 5.7km east of Order Limits (XC498). As the closest point is the existing XC overhead line significant cumulative landscape, setting and visual effects are unlikely as the Project will not change in appearance plus intervening distance, topography and vegetation would limit effects. Ecology - there are no designated ecological sites		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
20	2019/0092/FUL	Selby District Council	Proposed erection of sub-station and associated works adjacent to the car park	Ejot UK Unregistered Unit Hurricane Close Sherburn In Elmet Leeds North Yorkshire LS25 6PB		3.8km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	within 2km of development Scope out: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed development are unlikely. There are no designed ecology sites within 2km of the development. Closest site east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects and therefore significant ecological effects are also unlikely.		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
21	2019/0695/FUL	Selby District Council	Proposed erection of sub-station and associated works adjacent to car park	Ejot UK Unregistered Unit Hurricane Close Sherburn In Elmet Leeds North Yorkshire LS25 6PB		3.8km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed development are unlikely. There are no designed ecology sites within 2km of the development. Closest site east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects and therefore significant ecological effects are also unlikely.		no
22	2020/0123/REM M	Selby District Council	Reserved matters application including appearance, landscaping, layout and scale of	Former Kellingley Colliery Turvers		6.5km south-east	Application Permitted	1	Historic environment, landscape, biodiversity,	Significant cumulative setting, landscape and visual effects are unlikely		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
			approval 2020/0155/S73 - Section 73 application to vary condition 01 (plans) and 02 (employment use) of planning permission reference 2016/1343/OUTM for outline application including means of access (all other matters reserved) for the construction of an employment park up to 1.45 million sq ft (135,500sqm) gross floor space (GIA) comprising of B2, B8 and ancillary B1 uses, ancillary non-residential institution (D1) and retail uses (A1- A5) and related ancillary infrastructure) granted on 06 February 2019	Lane Kellingley Knottingley West Yorkshire WF11 8DT					socio-economics, health	given intervening distance, topography, vegetation and built features between the Project and the proposed development. Ecological effects are also unlikely - there are no statutory designated sites within 5km of development.		
23	2020/0155/S73	Selby District Council	Section 73 application to vary condition 01 (plans) and 02 (employment use) of planning permission reference 2016/1343/OUTM for outline application including means of access (all other matters reserved) for the construction of an employment park up to 1.45 million sq ft (135,500sqm) gross floor space (GIA) comprising of B2, B8 and ancillary B1 uses, ancillary non-residential institution (D1) and retail uses (A1- A5) and related ancillary infrastructure) granted on 06 February 2019	Former Kellingley Colliery Turvers Lane Kellingley Knottingley West Yorkshire WF11 8DT		6.5km south-east	Application Permitted	1	Historic environment , landscape, biodiversity, socio-economics, health	Significant cumulative setting, landscape and visual effects are unlikely given intervening distance, topography, vegetation and built features between the Project and the proposed development. Ecological effects are also unlikely - there are no statutory designated sites within 5km of development.		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
24	2020/0341/FUL	Selby District Council	Proposed access arrangements including the erection of one electric substation	Former Kellingley Colliery Turvers Lane Kellingley Knottingley West Yorkshire WF11 8DT		6.5km south-east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out effects: Significant cumulative setting, landscape and visual effects are unlikely given intervening distance, topography, vegetation and built features between the Project and the proposed development. Ecological effects are also unlikely - there are no statutory designated sites within 5km of development.		no
25	2021/1027/SCP	Selby District Council	EIA Scoping request for proposed development on land at	Gascoigne Wood Interchange Gascoigne Wood Mine Lennerton Lane Sherburn In Elmet North Yorkshire LS25 6LH		3.9km east	Application not proceeded with (30/06/2022)	1	Historic environment, landscape, biodiversity, socio-economics, health	Scope out effects: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										and the proposed development are unlikely. Closest statutory nature conservation site is east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects - this is approximately 3km from development. Furthermore as of June 2022 note on file saying application not proceeded with.		
26	2018/0228/SCN	Selby District Council	Request for Screening Opinion under Reg 6 of the 2017 EIA Regulations for the construction of 185,806sqm of B2/B8 floorspace at Gascoigne Wood Interchange	Gascoigne Wood Interchange Gascoigne Wood Mine Lennerton Lane Sherburn In Elmet North Yorkshire LS25 6LH		3.9km east	EIA required	3	Historic environment, landscape, biodiversity, socio-economics, health	Scope out effects: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										development are unlikely. Ecology - there are no designed ecology sites within 2km of the development. Closest statutory nature conservation site is east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects - this is approximately 3km from development.		
27	2018/1431/FULM	Selby District Council	Proposed construction of 3 no. agricultural buildings, including 2 no. cattle sheds, 1 no. tractor store and 1 no. straw store with hard standing external area and associated landscaping	Home Farm Kirkby Wharfe Tadcaster LS24 9DD		4.6km east	Application Permitted	1	Historic environment , landscape, biodiversity, socio-economics, health	Scope out effects: 4.6km east of Order Limits (XC484). Cumulative setting, landscape and visual effects unlikely given distance from Project and intervening vegetation, topography and existing built development such as A162. Closest statutory designated ecological sites are Sutton Ings SSSI (2.3km east from Project effects scoped out, 2.3km west of development) and Kirby Wharfe SSSI (4.5km east of Project - effects scoped out, 0.5km south of development) - Cumulative effects		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										unlikely given distances and that development comprises consolidating existing farm buildings onto farm yard.		
28	2018/0898/EIA	Selby District Council	Section 73 application to vary condition 02 of approval 2016/1456/EIA Proposed Installation of a Refused Derived Fuel (RDF) fired Combined Heat and Power (CHP) plant with 8000m2 Factory Extension and Associated Infrastructure	Kingspan Insulation Ltd Enterprise Way Sherburn In Elmet North Yorkshire LS25 6NE		3.9km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	Scoped out: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed development are unlikely. There are no designed ecology sites within 2km of the development. Closest site east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
29	2020/0355/S73	Selby District Council	Section 73 application to vary/remove condition 02 (approved plans) of planning permission reference 2018/0898/EIA Section 73 application to vary condition 02 of approval 2016/1456/EIA Proposed Installation of a Refused Derived Fuel (RDF) fired Combined Heat and Power (CHP) plant with 8000m2 Factory Extension and Associated Infrastructure granted on 03 April 2019	Kingspan Insulation Ltd Enterprise Way Sherburn In Elmet North Yorkshire LS25 6NE		3.9km east	Application Permitted	1	Historic environment, landscape, biodiversity, socio-economics, health	and therefore significant ecological effects are also unlikely. Scope out: Closest element of the Project is the existing XC overhead line which will remain unaltered in appearance and already forms part of the landscape baseline. Furthermore, intervening distances and existing screening (Sherburn in Elmet, A162 and a railway lie between development and Project) indicate that significant cumulative landscape, visual and historic environment setting effects on receptors between the Project and the proposed development are unlikely. There are no designed ecology sites within 2km of the development. Closest site east of Project is Sherburn Willows (1.3km east) - assessment has concluded no significant effects and therefore significant ecological		no

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols? 										GREEN given the intervening distance, topography and vegetation No statutory nature conservation designations within 2km of the proposed development.		
13 3 J	23/00199/FULMA	NYC (Harrogate)	Demolition of redundant pig buildings and grain silos. Ground works to remove pig lagoon and level out the site and creation of no.10 storage and distribution units (Use Class B8).	Trotters Farm Moor Monkton North Yorkshire		1km north west of existing 275kV OHL	Application not yet determined	1	Historic environment, landscape, biodiversity, socio-economics, health, geology and hydrogeology, agriculture and soils	Scoped out: Closest part of the Yorkshire GREEN Project comprises works around Moor Monkton. There is very limited potential for setting, landscape, and visual effects from the proposed development on receptors impacted by Yorkshire GREEN given the intervening distance, topography and vegetation. No statutory nature conservation designations within 2km of the proposed development. The proposed development comprises redevelopment of an existing farm site minimising the likelihood of cumulative landscape, visual and setting effects, as there would be limited visual change from the proposed development, or		No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										effects on geology, hydrogeology, agriculture and soils as the proposed development comprises land already developed. As health and socio-economic effects derive from other effects (visual, air quality, noise for example), no significant cumulative effects are likely.		
134	23/00160/OUTM (also 22/02185/EIASP & 22/01496/EIASN)	CYC	Outline application with all matters reserved except for access for circa 800 dwellings, provision of open space, flood storage measures, landscaping and associated infrastructure	Haxby: Land To The South Of Rose Cottage Farm And The Lodge Moor Lane		3.5km east of where 2TW connects to the proposed YN overhead line	Application not yet determined	1	Historic environment, landscape, biodiversity, socio-economics, health, agriculture and soils	Scoped out: There is very limited potential for setting, landscape and visual effects from the proposed development on receptors impacted by Yorkshire GREEN given the intervening distance, topography and vegetation. No statutory nature conservation designations within 2km of the proposed development and very limited to no ecological connectivity between the two developments and lack of likely pathway for cumulative ecological effects. As health and socio-economic effects derive from other		No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										effects (visual, air quality, noise for example), no significant cumulative effects are likely. A Construction Environmental Management Plan will be implemented for this development which will ensure the careful management of soils and effects on agriculture and soils are scoped out of the assessment. Therefore, significant cumulative effects are not likely.		
13	2022/1295/SCP 5	NYC (Selby)	EIA Scoping request for proposed development comprising 500 dwellings and public open space	Kelcbar Hill Tadcaster		Overlaps with Order Limits	NYC EIA Scoping opinion issued (but not available in documents accessed via NYC/Selby website)	2	All aspects	Scoped into short list for further appraisal as the proposed development overlaps with the Yorkshire GREEN Order Limits (where reconductoring works to the existing XC 275KV overhead line are proposed west of Tadcaster town). The applicants EIA Scoping Report indicates that the area of overlap would comprise public open space and ecological planting, with no built development due to this part of the site falling within flood zones 2 and 3.		Yes

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
13 6	22/01895/EIASN	CYC	Screening opinion in respect of ground mounted solar photovoltaic (PV) and battery storage development, including underground cable route, substation and ancillary equipment	Land To The South Of New Farm Lords Lane Nether Poppleton York		Overlaps with Order Limits	EIA not required	2	All aspects	Scoped into short list for further appraisal as the proposed development overlaps with the Yorkshire GREEN Order Limits (where the removal of the existing XC overhead line is proposed near Nether Poppleton), noting that the development has been screened as not requiring EIA.		Yes
13 7	22/00137/EIASN	CYC	Screening opinion in respect of the installation of a 50MW Battery Energy Storage System	Gells Farm, Osbaldwick		Assumed to be up to 1km from Osbaldwick Substation	EIA not required	2	Historic environment, landscape, biodiversity, socio-economics, health, geology and hydrogeology, agriculture and soils	Scoped out: The location and layout of this development is unclear as no layout or location plan is available on the CYC website. The EIA Screening Report and Opinion indicate this development is to the north-east of Osbaldwick Substation. The EIA screening opinion has identified that EIA is not required as impacts would be localised. No significant effects from the Yorkshire GREEN Project in this area are likely as the Project would comprise minor works at Osbaldwick Substation. There would be no substantial change		No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										in the appearance of the existing Project infrastructure and no disturbance to greenfield land. Therefore significant permanent cumulative effects are unlikely.		
13 8 U	ZG2023/0726/CO	NYC (Selby)	Change of use class to B8 Storage. Addition of 10 shipping containers for storage of scaffolding	Rawfield Lane Fairburn West Yorkshire		Within 20m of Order Limits (opposite side of Rawfield Lane to Monk Fryston Substation)	Awaiting decision	3	All aspects	Scoped out. This application for a change in use would comprise the addition of 10 shipping containers for storage. The site already includes single storey buildings and is well screened by dense hedgerow on all sides minimising visual, landscape and setting effects on receptors in the surrounding area. No ground works (and therefore ground disturbance or removal of vegetation) would be needed to install the containers.	N/A	No
13 9 N	ZG2023/0557/SC	NYC (Selby)	EIA Screening Opinion in relation to a solar farm with associated infrastructure	Hillam Grange Austfield Lane Hillam Leeds West Yorkshire LS25 5NQ	Design life of 40 years	2.8km east of Monk Fryston Substation	EIA Not required; application not yet submitted	2	Historic environment, landscape, biodiversity, socio-economics, health, agriculture and soils	Scoped out. Significant cumulative visual, landscape and setting effects unlikely due to the distance between the solar farm and Monk Fryston Substation as well as intervening topography and	N/A	No

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										<p><u>screening vegetation (hedgerows on field boundaries, small areas of woodland).</u> <u>The solar farm design will also include low height (3m) boundary planting. No substantial loss of agricultural land and no permanent significant socio-economic effects are likely. The EIA Screening Report identified no significant effects.</u></p>		
14	<u>ZG2023/0481/SC</u> <u>0 N</u>	<u>NYC (Selby)</u>	<u>EIA Screening Opinion in relation to the construction and operation of a solar farm together with all associated works, equipment, necessary infrastructure, and landscaping.</u>	<u>Nordens Barn Farm Common Lane South Milford Leeds West Yorkshire LS25 5DL</u>	<u>Design life of 40 years, 16 weeks construction</u>	<u>3.8km east of XC overhead line (Newthorpe/B1222 closest point)</u>	<u>EIA Not required; application not yet submitted</u>	<u>2</u>	<u>Historic environment, landscape, biodiversity, socio-economics, health, agriculture and soils</u>	<p><u>Scoped out. The closest point of the Yorkshire GREEN project comprises the refurbishment of the existing XC overhead line therefore there is limited potential for a cumulative change in landscape, visual or historic environment setting effects.</u> <u>Furthermore, the intervening distance, topography and screening would substantially minimise views of the solar farm from receptors in close proximity to the XD overhead line. The EIA Screening Report identified no significant effects. No substantial loss</u></p>	<u>N/A</u>	<u>No</u>

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
										<u>of agricultural land and no permanent significant socio-economic effects from the solar farm are likely.</u>		
14	<u>ZG2023/0774/FU</u> <u>1 LM</u>	<u>NYC</u> <u>(Selby)</u>	<u>The erection of 108 residential dwellings and associated works</u>	<u>Land North of Prospect Farm Milford Road Sherburn In Elmet North Yorkshire</u>		<u>2.5m east of XC overhead line</u>	<u>Awaiting decision</u>	<u>3</u>	<u>Historic environment, landscape, biodiversity, socio-economics, health, agriculture and soils</u>	<u>Scoped out. The closest point of the Yorkshire GREEN Project comprises the refurbishment of the existing XC overhead line therefore there is limited potential for a cumulative change in landscape, visual or historic environment setting effects. Furthermore, the housing development is on the south-eastern edge of Sherburn in Elmet and the intervening distance, topography and screening, particularly that from the existing development in Sherburn in Elmet to the north and west of the housing site is likely to substantially minimise views of the housing development from any receptors in close proximity to the XD overhead line.</u>	<u>N/A</u>	<u>No</u>

ID	Application Reference	Local Planning Authority	Description of other development	Location/ address	Temporal scope (construction phase and operational phase), where known	Proximity to Project	Status	Tie r	Relevant Zols?	Potential for significant cumulative effects (scale, nature, temporal scope)	Other factors?	Progress to Stage 3/4?
14 2	ZG2023/0489/SC P	NYC (Selby)	EIA Scoping request in relation to the proposed Tadcaster Flood Alleviation Scheme	Mill Lane Tadcaster	Construction 12-18 months	1.2km east of XC overhead line	Scoping opinion adopted	2	Historic environment, landscape, biodiversity, socio-economics, health, agriculture and soils	Scoped out: The Flood Alleviation Scheme (FAS) comprises amendments to the existing flood defence measures along the River Wharfe in Tadcaster (construction of flood defence walls and increasing existing bund heights). The closest point of the Yorkshire GREEN Project comprises the refurbishment of the existing XC overhead line and therefore there is limited potential for a cumulative change in landscape, visual or historic environment setting effects. The FAS design alignment has avoided heavily vegetated areas although there would be some localised tree clearance which would be offset by reinstatement and replacement tree planting.	N/A	No
