Dear Sirs,

Presall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[ ] The Unsuitable Geology of the Presall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I cant believe anyone could consider this area suitable for the proposal

First Name: david
Surname (please print) herd
Dear Sirs

**Prescell Saltfield Underground Gas Storage.**

Dear Sirs

Presetall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please [X]

[X] The Unsuitable Geology of the Presall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine! at Rossall
[ ] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

Presells Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Presells Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveieys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X]Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I believe the risk of storing gas at the above proposed site is too great where human life is concerned. The cons far outweigh the pros for this.

[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This is bad for residents of Wyre there could be explosions and it is too near residencies. Our beaches are not among the cleanest and adding the waste from the scheme can only make them worse. Also bad for the wildlife.

Dear Sirs

Presetall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Presetall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
How dare you propose this and put us and other Wyre residents at such grave risk, you should be ashamed.

Dear Sirs

Freesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Freesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment: The danger of gas storage and fracking within the same area worries me. Are we becoming the dumping ground for all types of industry no-one else wants in the UK?

Dear Sirs

Presell Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This area is unique its wildlife and its people both matter. Enclosing gas in this way with no guarantee of long term safety, the fracking for shale gas nearby, risk of tremmors, this is not a safe gas storage.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

![Please ✔](image)

- [X] The Unsuitable Geology of the Preesall Salt  
- [X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
- [X] Gas Migration Risk to Over Wyre Villages  
- [X] Potential for a Well Head Explosion  
- [X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
- [X] The Scheme would provide a New Terrorist Target  
- [X] Ecological Damage from Discharge of the Brine at Rossall  
- [X] Destruction of Countryside and Wild Life  
- [X] Impact on Recreational Use & Landscape  
- [X] Long Term Effect on House Prices and Insurance

**Comment:**

We now have an agreement to allow fracking in the area which has already caused earthquakes felt around the Wyre, this makes the idea of underground gas storage even more dangerous.

Dear Sirs

**Preeassall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preeassall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[ ] Long Term Effect on House Prices and Insurance

Dear Sirs

Preeass Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- [x] The Unsuitable Geology of the Preeass Salt  
- [ ] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
- [x] Gas Migration Risk to Over Wyre Villages  
- [x] Potential for a Well Head Explosion  
- [ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
- [ ] The Scheme would provide a New Terrorist Target  
- [x] Ecological Damage from Discharge of the Brine at Rossall  
- [ ] Destruction of Countryside and Wild Life  
- [x] Impact on Recreational Use & Landscape  
- [x] Long Term Effect on House Prices and Insurance

Comment:  
It is ridiculous to propose a Gas storage in an unstable area. We have fought for years to stop this and we do not weaken however many times you may rebrand yourself.

Dear Sirs

Prescall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Prescall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
The proposal provides a conflict between storage and destroying our underground structure caused by i.e. fracking. I feel this creates substantial danger.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
How can we have underground Gas storage within miles of gas fracking? Surely the two are in conflict.
Fracking could also destabilise the ground causing problems with underground storage.

[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
There is evidence of real safety issues regarding gas migration. The caverns cannot be made gas tight which will lead to leaks. Also the local infrastructure could not cope with the added industrial traffic.

Dear Sirs

Prescall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ☑

[X] The Unsuitable Geology of the Prescall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[] Long Term Effect on House Prices and Insurance

Comment:
The geology of the local area is not suitable due to fissures and erosion. There have been several well documented complications and one VERY well documented explosion with this kind of storage in the USA.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ☑

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wildlife  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: There are many reasons for the gas storage not be constructed, but mainly it will destroy where we live, and the reason why we live there.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ☑

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

**Pressall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

*Please ✔*

[X] The Unsuitable Geology of the Pressall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

Presetall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Presetall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment: in addition to the above, the United Utilities tunnel which runs from Fleetwood to Blackpool is less than a mile away from these caverns with the added risk of fracking gas could seep into this tunnel & explode!

Dear Sirs

**Preeall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[ ] The Unsuitable Geology of the Preeall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[ ] Ecological Damage from Discharge of the Brine at Rossall
[ ] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:

[ ] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Comment:
Living on the Promenade in Blackpool I am very concerned at the possibility of gas escaping into the United Utilities infrastructure with tunnels directly opposite my property.

Comment:

With fracking in the Fylde about to get the go ahead and the potential risk of earthquakes caused by this controversial method of gas extraction in an area that is known to be geologically unsound and prone to earthquakes, which we have experienced in past years even without the help of the fracking, I feel that the residents in the surrounding area would be sitting on a time bomb if gas were to be stored in man-made caverns under the Wyre Estuary. It has the makings of a disaster about to happen.

[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This is too risky and now the worry of it leaking into the sewer pipes. Just PLEASE do not allow this project to go any further.

Dear Sirs  

Preesall Saltfield Underground Gas Storage.  

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.  

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance  

Comment:  
If this scheme is implemented and shale gas drilling is given the go-ahead, then the earth tremors from fracking, probably would compromise the storage facility with potentially catastrophic results.

Dear Sirs  

**Preesall Saltfield Underground Gas Storage.**  
I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.  

- Unsuitable Geology of the Preesall Salt  
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
- Gas Migration Risk to Over Wyre Villages  
- Potential for a Well Head Explosion  
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
- The Scheme would provide a New Terrorist Target  
- Ecological Damage from Discharge of the Brine at Rossall  
- Destruction of Countryside and Wild Life  
- Impact on Recreational Use & Landscape  
- Long Term Effect on House Prices and Insurance  

Comment:  
We don’t want this. Please invest in renewable clean energy instead.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[ ] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Comment:
There is no need or economical sense in storing gas in caverns, there is an under-utilisation of existing gas storage facilities nationwide.

[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This is a very high risk project - commercially, structurally, and not in the public interest. Already over £60m in debt and over £1 billion needed in initial profits just to break even. Our lives are at risk.

[X] Long Term Effect on House Prices and Insurance

Comment:
I am also concerned about the possible consequences of ‘fracking’ in the exploration for shale gas which is taking place nearby. This is admitted to be the cause of a minor earthquake in Poulton last year.

Dear Sirs

**Preessall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- The Unsuitable Geology of the Preessall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

-------------

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:

Dear Sirs

Prested Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Prested Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
In general I am totally against this type of development that can be affected by a number of outside factors including land shift, geological and weather factors, particularly as my mother lives in Thornton.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment: The proposal for storage of gas in the underground caverns seems to me to be hugely irresponsible.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Why allow this plan to go ahead when it is obviously a danger & the site is unsuitable? The cost to lives could be phenomenal should there be an accident.

First Name: Beth
Surname (please print) Parkinson
Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
The geology of the site is unsuitable and the risk of gas escaping is potentially dangerous. The discharge of brine from the solution mining will damage the environment and there will be damage to wildlife habitat.

Preesall Saltfield Underground Gas Storage

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- The Unsuitable Geology of the Preesall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula & Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

Comment:-

I would like to know who would compensate us for any damage to our homes because insurance companies will not and also the insurance would not be affordable so then we will have no cover.

Dear Sirs

**Presetall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- [X] The Unsuitable Geology of the Presetall Salt
- [X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- [X] Gas Migration Risk to Over Wyre Villages
- [X] Potential for a Well Head Explosion
- [X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- [X] The Scheme would provide a New Terrorist Target
- [X] Ecological Damage from Discharge of the Brine at Rossall
- [X] Destruction of Countryside and Wild Life
- [X] Impact on Recreational Use & Landscape
- [X] Long Term Effect on House Prices and Insurance

Dear Sirs

**Presall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Presall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
We have already had 2 earthquakes - however slight - caused by fracking. FACT. This is about to recommence. Damage caused by earthquakes could weaken the geology even more, with potentially disastrous results.

Surname (please print)  Harcombe
Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

1. The Unsuitable Geology of the Preesall Salt
2. Gas Migration Risk to Fleetwood, Thornton & Cleveleys
3. Gas Migration Risk to Over Wyre Villages
4. Potential for a Well Head Explosion
5. Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
6. The Scheme would provide a New Terrorist Target
7. Ecological Damage from Discharge of the Brine at Rossall
8. Destruction of Countryside and Wild Life
9. Impact on Recreational Use & Landscape
10. Long Term Effect on House Prices and Insurance

Comment:
Wyre estuary is an unspolit area of natural beauty. Wrong place 4 Industrialisation. The sea off the Fylde is already polluted, beaches to be closed if no improvement, you'll kill wildlife with saturated brine!

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please Tick

[ ] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[ ] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[ ] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

---

Dear Sirs

Preston Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preston Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Why? Can't wind energy be used? There HAS to be some alternative. Thank god we got ourselves away from Thornton and moved to Australia where the voice of the sensed is listened to and acted upon.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
My mother lives alone in Stalmine and the house prices and home insurance will be effected by this scheme. What do the locals get out of this, only to add more worries with possible ecological damage to the area.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- The Unsuitable Geology of the Preesall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

Comment:

Comment:
'Fracking' in the Poulton area has already caused minor earth tremors. The effect of these on existing underground faults and cracks in the Presall salt beds could cause massive gas escapes and explosions.

[ ] Ecological Damage from Discharge of the Brine at Rossall  
Decoration of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[ ] Long Term Effect on House Prices and Insurance

Comment:
Dinorwig experience at similar depths in concrete lined slate tunnels - water leakage was problematic despite impermeability of slate. Gas is more searching & I don't believe can be safely stored as proposed.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- The Unsuitable Geology of the Preesall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

Comment:
There is a danger of significant release and possible explosion

Dear Sirs,

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons:

- [x] The Unsuitable Geology of the Preesall Salt
- [x] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- [ ] Gas Migration Risk to Over Wyre Villages
- [ ] Potential for a Well Head Explosion
- [ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- [ ] The Scheme would provide a New Terrorist Target
- [x] Ecological Damage from Discharge of the Brine at Rossall
- [x] Destruction of Countryside and Wild Life
- [ ] Impact on Recreational Use & Landscape
- [ ] Long Term Effect on House Prices and Insurance

Comment:
The discharge of brine would impact detrimentally on salt and migratory fish and the inshore water ecology. Marine Conservation Zones are being set up to protect our endangered ecology so this project is crazy.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
It is very worrying to think of the consequences if permission were granted for this scheme. Although we are reassured all will be safe, these promises have been given before proving to be untrue later.

[X] Long Term Effect on House Prices and Insurance

Comment:
I believe that Fracking and gas caverns are mutually exclusive. The extensive ground disturbance created by local Fracking significantly increases the chance of gas migration and ignition from caverns.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[ ] The Unsuitable Geology of the Preesall Salt
[ ] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[ ] Gas Migration Risk to Over Wyre Villages
[ ] Potential for a Well Head Explosion
[ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[ ] Ecological Damage from Discharge of the Brine at Rossall
[ ] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons:

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
I do not agree with the gas storage proposals because of the dangers of underground gas leaking, and the disruption to the landscape.

[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I objected to gas storage when Canatxx applied, the dangers are still apparent even though the firm has changed its name. I will continue to object.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

Prestall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Prestall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
I would like to raise my objections to the storage of gas around the wyre estuary. The obvious danger to human life must surely outweigh the supposed 'benefit' of storing lethal gas around a populated area.

Comment: CO2 is stored in similar caverns and there is concern re what the consequences of a leak might be. This seems to demonstrate that it is feasible and if so a gas leak could be devastating.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I am appalled that this has again arisen! When I said NO the last time, it stands to reason that I certainly WILL not have changed my mind!

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
There is enough risk of danger from the sea without adding to that, also we have 2 other potential terrorist targets in the area with Salwick atomic energy and BAE at Warton Lets not add a third.

Dear Sirs

**Preston Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preston Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:

Dear Sirs

**Prestall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Prestall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[ ] Gas Migration Risk to Over Wyre Villages  
[ ] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[ ] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[ ] Destruction of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[ ] Long Term Effect on House Prices and Insurance

Comment: We have won award for Rossall Beach. Idea that discharge will not adversely alter this is perversive. Gas leakage/permeation is great concern. Remember we had earth tremors not long ago. Land here unstable/soft.

First Name:  Dave

Surname (please print)  Eager
Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- Unsuitable Geology of the Preesall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

Comment:
The geology of the area is totally unsuitable for this type of gas storage. There have been earth tremors as a result of fracking in the area and this shows how unstable the area is.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

![Please](image)

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
I believe that gas storage could also be adversely affected by the 'fracking' activity in the area.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to
register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the
following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
In addition, there is current concern over 'fracking' being carried out in the area and the tremors it may have
caused. This could potentially de-stabilise geology and increase the risk of leaks/migration.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: this has gone on long enough & must be stopped NOW

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Quite apart from the valid reasons listed above, the overwhelmingly arrogant disregard for the residents of the area is frustrating in the extreme. They have been refused once under their previous name - please do not allow this now that they have had a change of name - the reasons for refusal still apply.

Comment:  
Besides the above concerns which I wholeheartedly support I also feel there are other points that need to be considered by the government when reviewing this application. 1. Despite reassurances from the companies applying there is no guarantee of safety. This is a high risk industry trying to locate close to a residential area. 2. Transport links totally inadequate and will cause traffic congestion. Further pollution will be caused and increased chance of road traffic incidents. 3. Living on a time bomb. We recently had fracking of shale gas in the same area, and if all this goes ahead as well, it would be a potential time bomb on the Fylde coast. 4. The government actively pushes the concept of local community taking control and taking control of their local area, which such local outcry regarding this application it sends a very contradictory message to the voters if the government was to change its stance and now support such an application.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Additionally, I find it outrageous that a foreign company that is not even in the EU can come over here and try to push in a business totally against the wishes of the citizens of the area in question. Somehow, I could not see a British company being allowed to do the same over in the USA. I trust the planning inspectorate will do the right thing and act as a voice of the people, and send this company packing. The sad thing is that we all know this will go up to ministerial level where bribes and promised future expletive positions will overturn any decision made now, but we can at least prolong matters.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

**Please**

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
With Fracking starting up again and being allowed to cause earthquakes how can anyone allow gas storage within the same area? The gas migration risk is going to be at an extremely high risk. Too high for the residents of the Fylde Coast. I totally object to the proposed scheme to store natural gas as I prefer the public to be safe from migration risks among the rest of the risks that will effect us. Yours sincerely U Chadwick

[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Should not be allowed anywhere near residential properties where peoples health and lives are at risk, let alone the effect it will have on house prices. Also we treasure our wild life area and are lucky to have it on our doorstep and I for one would like it to remain that way, I spend a lot of time down there with my grandchildren. Some of the ICI buildings are a bad enough eyesore, now gas tanks I dont think so.

[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
It's very worrying to think of all that gas virtually under people's houses. It's never going to be 100% safe, nothing ever is. The discharge of brine will kill the sealife that has recently been recovering from sewage pollution.

[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
Renewable energy is a much safer and viable alternative. The storing of underground gas has far too many negative and dangerous implications. Renewable energy is THE only way forward.

Comment:
With up to £600m development cost and already over £60m in debt, with little assets, (2010 Annual Report) this company is likely to try to cut corners on what is already a high risk project. Our lives and livelihoods must not be put at risk by a group of foreign speculators operating at arms length from UK judicial system.

Comment:
We already have gas stored in its own natural locations under the sea which is being sold abroad for big profits. It is not logical to then build unnatural manmade storage locations with all the inherent dangers to humans and our environment when instead we should stop selling but store gas where it is for future UK use! Our beautiful earth is being ruined out of pure greed by the few who care not for local peoples lives or our land but for profit. We already have the fracking which is said to bring work to local folk - why then are their sites filled with contractor vehicles from abroad? Fracking is also notoriously unsafe [earthquakes and steepest] and monitoring its safety has resulted in all local roads being littered with wires and ramps causing much inconvenience and danger - I suspect that is nothing compared to what we will get Over Wyre if we do not stop this rape and pillage for profit of our beautiful Wyre Estuary. Why we haven’t been allowed to say no to fracking is beyond belief - we must therefore do all we can to prevent another dangerous industry setting up shop here which is potentially more dangerous because of the earthquake risk from fracking! SAY NO TO GAS STORAGE! and SAY YES TO RENEWABLE ENERGY! These carbon free energy sources harm neither man nor the environment - surely we should be investing in renewables and not in the preservation and storage of archaic carbon fuels that we know are ruining our planet and its climate! Have we thought of organising a protest march - easy to do by flash mob using mobile phones?

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
My partners parents live in the area. I can see a noticeable difference in them due to the stress the risk of this site development is having. I agree with the above concerns and share their objection.

[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance  

Comment:  
I am very unhappy that gas is proposed to be stored under my home virtually whilst at the same time fracking is allowed which is causing earthquakes in the area. This is madness that must not be allowed.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

**Comment:** The resumption of fracking in the area is an additional concern. Fracking has caused earthquakes in the area and will do so again. The combination of pressurized gas storage and unstable geology is not an advisable risk.

Dear Sirs

Presetall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] Unsuitable Geology of the Presetall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: 
I am objecting due to the above reasons key reasons. In addition to the above I wanted to flag that the geographic age range of people in the area. Many of the people living are retired and moved to the area for the quietness and security it brings. My parents have worked hard all their lives to earn the opportunity to live in these conditions. The continued attempts by these large organisation purely focused on profit to store gas in this location is starting to impact their health (and the health of their friends). The continued attempts by companies to locate here is adding a large degree of stress to their lives. If this does go ahead I am worried about the impact to their health and feel that the government should support them and their peers to not allow this to happen. The large swell of discontent on this is clear to see and none of these key voters wish for this site to be located here.

**Presell Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons:

Please ☑

[X] The Unsuitable Geology of the Presell Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: there have already been earth tremors from the fracking. When will you listen? When lives have been lost? When there are gas explosions in residential areas. We are concerned about the safety of our children who will have to live with the long term detremental affects on the environment. There are other fuels to use I don't understand why after three rejected applications and the huge amount of concern by residents that a fourth application could even be considered.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
It is far too close to human habitation. To think what could happen in case of getting out of the way. The A585 would not cope as it's such a bottleneck. Far far to close to Fleetwood and its 30,000 inhabitants.

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of brine at Rossall
[X] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:

Having worked in the off-shore gas industries disasters were only averted by the competence of the installations if this had not been possible only the people on the intalations would have been affected. Onshore gas would be a risk to thousands of families and homes over a wide area. The brine pumped into the Irish sea would create our very own dead Sea the area is also in a risk area for flooding in the event of rising seas levels and would diminish property value and vastly increase insurance levels.

Date: 28 April 2012

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I am particularly concerned at the safety issues and the effects on marine life. Once lost it may never recover - Cod stocks lost at Grand Banks (albeit through over fishing) is a demonstration of this

Dear Sirs  

Presall Saltfield Underground Gas Storage.  

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.  

Please:  

[X] The Unsuitable Geology of the Presall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance  

Comment:  
Brine is a natural resource and used extensively in the petro-chemical industry. Discharging it in the Irish Sea constitutes an unacceptable waste of that natural resource at a time when we are urged to save, use less and recycle. As a marine engineer working in the offshore industry I am prohibited from even rinsing out tanks with sea water that have previously contained brine.

- [] Long Term Effect on House Prices and Insurance

Comment:
Creation & use of unlined caverns for gas in a fault ridden area of high ecological value & with a substantial resident population cannot be sustainable development or in the national/local interest. Any commercial profit would be at public expense.

- [ ] Destruction of Countryside and Wild Life
- [X] Impact on Recreational Use & Landscape
- [X] Long Term Effect on House Prices and Insurance

Comment:
Yet again this matter has raised its ugly head. It doesn't matter how it is re-branded, this project should be declined once and for all. Sadly one of this project's greatest opponents died in 2010 but Marjorie McCann's thoughts were well known on this subject and the residents of Hambleton, Over Wyre and the surrounding area owe it to her memory to continue to oppose the latest and hopefully final plans.

Comment:
this project has disaster written all over it everybody knows the ground is not secure enough for this type of gas storage and leaks would be springing up all over the wyre area and with the introduction of fracking down the coast its only be a matter of time till a tremor from that progett causes a crack / leak and some disaster unfolds i hope all involved would be ready for some serious law suits if it does !! just say no and be done with it !

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please 🇬🇧

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[ ] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[ ] Ecological Damage from Discharge of the Brine at Rossall
Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
The salt mines are not a safe option to store gas this is a great concern to me as I work in the area

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

![Please]

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
Use the north sea instead it is much larger and nobody actually lives in the north sea. The salt mines are not even safe!

**Preeasall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please check:

[X] The Unsuitable Geology of the Preeasall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:

Apart from all the above reasons I cannot understand how this project has been given any further consideration when "Fracking" is to be carried out virtually underneath! If this Government gives the go ahead it shows their lack of consideration for anything north of Watford Gap and myself and the rest of my family will never vote for this party again.

[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
It could be an ecological and environmental disaster waiting to happen. The problems are there (under ground) but nobody knows when the earth "will get its own back". Earth tremors from the fracking and who knows what gas storage will bring!!

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This proposal represents a real threat to the safety and well-being of all residents of, and visitors to, this area. The River Wyre estuary is a wholly inappropriate location for a scheme of this type and would have a damaging impact on the area both environmentally, commercially and socially. The intended plan presents an unacceptable risk to the physical, emotional and social wellbeing of many communities across the area and is not justifiable on any grounds. It is unethical and irresponsible to give priority to commercial interest and profit over human safety and well-being.

Comment:
Who on earth drummed up this outrageus idea. I'll bet he/she lives nowhere near to this project and I'll bet they would object to it if they did. Why the River Wyre. What about the River Thames, they would not stand for it, it would be too near to a massive amount of public buildings and people, including No: 10.

[] Destruction of Countryside and Wild Life
[] Impact on Recreational Use & Landscape
[] Long Term Effect on House Prices and Insurance

Comment:
For the best part of a decade, the shadow of this project has loomed large over Over Wyre residents. Time and again this application has been defeated and yet this project just refuses to go away. Canatxx may have changed the name, but that seems to be the only thing that has changed. The twisting of facts, patronising claims of safety and utter lack of transparency continue unabated. I appreciate that in these uncertain times, this project may seem like a lifeline to meeting our country’s future energy needs. It would also possibly create jobs. But it would destroy a great deal of biodiversity, be a blot on the local landscape and put thousands of people’s lives at risk. I hope that the Planning Inspectorate takes all the facts into consideration and refuses to grant Halite permission. I also hope that legislation is passed to stop the continued resubmission of this application so at long last the people of Over Wyre can rest easy.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preeasall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

**Prestall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please [ ]

- The Unsuitable Geology of the Prestall Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

Comment:

I am very concerned about the long term consequences of this proposal and the potential impact on local residents. I would therefore like to register my disapproval of the scheme.

Dear Sirs

**Preeasull Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preeasull Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
The above reasons and also the previous three applications that were turned down are enough not to let this proposed scheme go ahead.

[ ] Destruction of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
My number one concern is SAFETY, and the fact that the proposed development is so close to so many homes. It would be like living in a time bomb. Additionally, there have been earth tremors in the area and the current uncertainty of the fracking being linked to earthquakes will only make the gas storage even more dangerous. This project should be abandoned once and for all.

Dear Sirs

**Preeasill Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preeasill Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
TOTALLY OPPOSED TO THIS SCHEME DUE TO THE DANGER TO THE AREA

Dear Sirs,

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

**Please [V]**

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

**Comment:**

It is unbelievable that this company has been allowed to submit yet another proposal for this scheme. It is obvious that the majority of residents of the Fylde Coast are unhappy with these proposals due to the known and indeed unknown dangers of having such a large amount of gas stored virtually underneath our homes.

Comment:
This is a foolhardy scheme & should not be allowed to go ahead. Also I am sick of Halite / Canatxx submitting multiple applications for this foolish & dangerous venture, the MP's councils & most of the people of Wyre don't want it. This must be their LAST application & stop wasting money & unsettling the local population.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre

[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:

[X] Ecological Damage from Discharge of the Brine! at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
This potentially dangerous use of the salt mines has been overwhelmingly rejected by concerned residents since 2003. This must surely be the end of any further applications.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:

In addition to the above issues, there is a risk of flooding of land associated with the gas storage facilities from both the sea and the river Ribble. In such an event the infrastructure associated with the safety of the storage facilities (such as well head pumps and monitoring equipment) may become damaged and compromise the safety of the site. I cannot see how the applicant has mitigated this risk in their current scheme. Other areas of the UK which use salt cavern storage (such as at Hornsea in Yorkshire) are based above flood plains so are not exposed to this type of risk.

Dear Sirs

**Presall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Presall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
All my family live within 3 miles of this project. I do not trust these huge companies they are doing this for one thing and one thing only and that is money. They don’t give a damn about the disruption this may cause to our lives.

[X] Long Term Effect on House Prices and Insurance

Comment:  
Why are they allowed to keep appealing when it has already been rejected by an official enquiry. Is there not a possiblity that the fracking process that has already caused two earth quakes, will have a detromental effect on the gas storage and potentially the gas stored at such a high pressure will migrate.

Comment:
The applicants under the previous name of CANATAXX have had three previous planning applications turned down or rejected. This decision was right the first time and in subsequent attempts. Quite clearly there is a possible need for this, but would suggest that the saltmine caverns under Cheshire may be even more suitable, but would never get planning consent because of the wealth in that County. But have to say that in view of the number of incidents and accidents in sites when this method of Gas Storage has been used, I doubt there is any safe place or site in the U.K.

**Comment:**  
i live in Blackpool and until a way has been found to fence the sea I feel my area too will be affected. My main concern is an ecological/humane concern for the creatures needing the land and water. This unpopular scheme should have been stopped before the first earthquake happened never mind assessing how many more are permissible!

[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
myself and family do not like the idea of living so close to the potential risk of gas explosion; and would you like this on your own doorstep.

First Name: Jeremy

Surname (please print) Steel
Dear Sirs

**Presall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Presall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I have lived in this area for 12 years during which time there has been a number of earth tremors. There is also a fault in the earth around Presall. Some of the brine wells have collapsed over the years, some munitions were purportedly dumped in some disused well by ICI. The roadways are not suitable for heavy vehicles and would create a huge problem for local traffic.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
The instability of this land is particularly concerning. The recent blow out of one of the well heads proves either the ground is incapable of containing gas under pressure or, as suggested by Hailite, tampering by outside sources is a real possibility thereby making a target for terrorists.

Dear Sirs

Prestatyn Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Prestatyn Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Comment:
In view of plans to continue fracking in the locality it would seem more dangerous than ever to store gas in an area already proven to suffer the effects of fracking induced earthquakes. I am concerned for public safety and for the future of our children. The Morecambe Bay area already accommodates nuclear, wind and electricity power plants. It is unfair and unrealistic to expect the area to bear a further burden. But, above all, it is safety that is my main concern. I am a mother and grandmother and want a safe future for my own family and for all families. I would ask the planners and the company submitting the application to store gas to consider lives before profit.

[X] Destruction of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
Just offshore in Morecambe Bay lie the, now almost depleted, gas fields. In other areas fields like this have been used for gas storage. The existing infrastructure could surely be used or modified to allow the storage of large quantities of gas. We can, safely, assume that storage in the old wells is safe, it certainly caused no problem before it was extracted. There is a large demand for salt in the UK and it seems madness to liquify it and pump it into an area of spawning for fish and other marine animals.

[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Comment:
Fracking for natural gas has already caused an earthquake locally. The combination of the likelihood of further earthquakes with the unsuitable geology increases the serious risk of a devastating explosion.

[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
Having lived Over Wyre all my life I feel very strongly about the gas storage that is being proposed. This will affect the whole area negatively both on an environmental level & also a residential level. Maybe those with the power to accept or reject the proposal should try to imagine how they would feel if it was suggested for the area they live. Would they be comfortable knowing that they had a potential explosion on their doorstep?

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
The Brine discharges would detrimentally impact salt water and migratory fish and the whole ecology of the area's inshore waters. This is unacceptable when Marine Conservation Zones are being created to protect our already depleted marine ecology.

Dear Sirs

Preston Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

[X] The Unsuitable Geology of the Preston Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
There have been minor earthquakes caused off shore at Blackpool in the quest to extract gas. Imagine that on a bigger scale! Even natural quakes are not unknown in this area. So far too dangerous. It is time to put people and nature before profits.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment: this site and geology of the area along with the environmental impact on the wildlife and the risk of damage to the sealife in the Wyre estuary along with the danger to residents of a gas leak.

First Name: Graham

Surname (please print) Rowe

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- The Unsuitable Geology of the Preesall Salt  
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
- Gas Migration Risk to Over Wyre Villages  
- Potential for a Well Head Explosion  
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
- The Scheme would provide a New Terrorist Target  
- Ecological Damage from Discharge of the Brine at Rossall  
- Destruction of Countryside and Wild Life  
- Impact on Recreational Use & Landscape  
- Long Term Effect on House Prices and Insurance

Comment:
My sister lives in Poulton. I am very concerned about the potential for disaster with this scheme, and also the nearby "fracking". The two schemes seem to have the possibility to interfere with each other.

Comment:  
With gas being stored under such high pressure there is always a risk/danger of leakage. I've seen the effects of gas explosions recently in Salford. I don't want that to happen locally.

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[ ] The Scheme would provide a New Terrorist Target  
[ ] Ecological Damage from Discharge of the Brine at Rossall  
Destruction of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: 
There is every possibility of small leakage from these caverns. Resultant build up gas would be catastrophic at some point. I lost a personal friend at ABBEYSTADE, and that gas wasn't pressurised.

Janice Paine

Sunday, 13 May 2012

Dear Sirs

Re: Preesall Saltfield Underground Gas Storage

I am requesting the Protect Wyre Group to present this letter on my behalf as part of their evidence to support their objections to the proposed storage of gas within the Over-Wyre area and under the River Wyre estuary.

I have been a resident of Over-Wyre with my husband for over 39 years, living in Knott-End & Preesall. I have raised a family here—my son, aged 36 & daughter, aged 41), both live in Preesall. My daughter has two daughters living with her & my sister & her family also live in Preesall. I have suffered from a stress-related illness for 29 years, which has left me severely disabled & confined to a wheel-chair.

The repeated concern generated over the last 9 years, firstly by the company formerly known as Canatxx, & then aggravated further by related proposals by the company Halite, to deploy gas storage schemes within the area I live, (& the threats that the schemes impose to mine & my families health & standard of living), have & are continuing to affect my medical condition.

To be forced to live under continual threat of this scheme being implemented against the wishes of myself and my surrounding community, I feel is a violation of human rights.

As I understand it, the geology of the River Wyre estuary & surrounding salt-fields within the Over-Wyre areas of Preesall, Knott-End, Stalmine, Hambleton & Pilling is unsuitable for safe storage of gas since there is a high risk of gas leakage and gas migration under community housing estates and into the surrounding areas of Fleetwood, Thornton & Cleveleys.

Should there be a gas leak in the immediate area, myself and the community would be exposed to potentially lethal toxic substances & may not realise it. Furthermore, if an explosion was to occur as a result of leaking gasses, it would be extremely difficult for me to be evacuated, due to both my circumstances & the limited access to and from the area.

I urgently request for my objection to be registered against the gas storage proposals.

Yours faithfully,

Mrs. Janice Paine
Dear Sirs

My husband and I have recently moved to Preesall for a number of reasons, the main ones being to
downsise from a house to a bungalow, to be nearer to our daughter, who lives Knott End and to
enjoy the lovely mix of countryside/coastal walks, along with the natural beauty and wildlife that
they present. We have found some lovely walks around Barnaby Sands (Wyre Way) and the
surrounding country lanes. We consider ourselves so lucky to have these amenities on our doorstep.
We are both retired and although we are currently both fairly fit, the fact our daughter is nearby
gives us a sense of security for the future.

There is however, one very large 'fly in the ointment' and that is the planning application by Halite
to store such large quantities of gas in such an unstable area as that around the old salt mines.
Whilst on our walks we have observed the close proximity of the old well heads to both the nearby
dwellings and the coastal path. We have also observed some quite rare birds such as wheat-ears and
a short-eared owl, whose hunting habitat would be in danger if the plans went ahead. We have also
seen hares, rabbits and other wildlife in the fields under which the gas would be stored. Their
habitat, and that of many other species of small mammals and birds would also be destroyed.

We have seen in various places where the land has subsided, due to its fragility and in some places,
subsequently filled with brine water. Then there is the requirement to remove tonnes of salt - in
creating the new storage caverns - which will then be dumped in the sea near Rossall. To destroy so
much marine life, at a time when so many species are already battling for survival against other
forms of pollution is - or should be unthinkable.

Perhaps the most frightening thing is the danger that there would be to residents, not only those
close by, but also to those living several miles away - should there be a catastrophic failure within
the proposed storage caverns. There is also the potential for the area to become a target for some
terrorist organisation, some of which I feel sure are already planning where, in this country, they can
target next. One cannot begin to imagine the havoc that this would wreak. Surely we would need
to have a very complex plan of evacuation and my feeling is that those people living in the
immediate vicinity (two to three miles) would stand little or no chance of survival from any major
gas explosion and subsequent fireball.

We, therefore, wish you, as members of the Protect Wyre Group, to register our very great concerns
regarding Halite's gas storage plans with the Planning Inspectorate when you have your opportunity
to speak.

Yours sincerely

[Redacted]
Dear Sirs

Presell Saltfield Underground Gas Storage

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

☐ The Unsuitable Geology of the Presell Salt

☐ Gas Migration Risk to Fleetwood, Thornton & Cleveleys

☐ Gas Migration Risk to Over Wyre Villages

☐ Potential for a Well Head Explosion

☐ Evacuation of Thornton / Fleetwood Peninsula & Over Wyre

☐ The Scheme would provide a New Terrorist Target

☐ Ecological Damage from Discharge of the Brine at Rossall

☐ Destruction of Countryside and Wild Life

☐ Impact on Recreational Use & Landscape

☐ Long Term Effect on House Prices and Insurance

Comment:-

I agree with all the above and do not want underground gas storage.

Signed:

Address:
Dear Mrs Sapsford,

**PREESALL UNDERGROUND GAS STORAGE PROPOSAL – EN030001**

Thank you for your letter dated 5 May 2012 relating to the above application.

In order to participate in this application, the Planning Act requires people to register in advance to become “interested parties”. People were invited to register with the Planning Inspectorate, including by public notice, earlier this year and the deadline for doing so has passed. We have checked our records and you do not appear to have registered with us as an interested party, or to be an interested party for any other reason\(^1\).

An Examining authority - panel of three Examining Inspectors - has been appointed by the Secretary of State to examine the application, and the examination is now underway. The Examining authority has the power to consider whether to accept submissions from people not registered as interested parties\(^2\), but is not under a duty to do so.

In this instance, the Examining authority has decided not to consider any correspondence sent directly to us in the form of the template provided to people by Protect Wyre Group (PWG). This matter was discussed at the Preliminary Meeting held at the Marine Hall in Fleetwood on 24 April 2012 (A note of the meeting is available on our website or to view at the locations set out in Annex A of this letter. A recording of the meeting is also available on our website). The Chairman of PWG said that the Group intends to submit the views of local residents in support of the written representations of PWG. The Chairman of the panel noted that in this case, such views would not be from individuals as Interested Parties.

It is our understanding therefore that PWG intends for your letter to be sent to them, and the Examining authority considers that it has been inadvertently sent to the Planning Inspectorate. PWG has been made aware of this decision. You may wish to contact PWG therefore directly about your letter, which has not been passed to them and is enclosed.

---

\(^1\) Other reasons are given in S.102 of the Planning Act 2008 and relate to parties automatically given Interested Party status.

\(^2\) Rule 10(3), The Infrastructure Planning (Examination Procedure) Rules 2010
You can follow the examination as it progresses. All submissions to the examination by interested parties are published on the website and are available to view at a number of locations in the local area. However, if you have any queries regarding this letter please do contact us on the number above.

Yours Sincerely,

Tom Carpen

Principal Case Manager
National Infrastructure Directorate,
The Planning Inspectorate,
Temple Quay House,
Temple Quay,
Bristol,
BS1 6PN

Advice may be given about applying for an order granting development consent or making representations about an application (or a proposed application). This communication does not however constitute legal advice upon which you can rely and you should obtain your own legal advice and professional advice as required.

A record of the advice which is provided will be recorded on the Planning Inspectorate website together with the name of the person or organisation who asked for the advice. The privacy of any other personal information will be protected in accordance with our Information Charter which you should view before sending information to the Planning Inspectorate.
Dear Sir

Preesall Saltfield Underground Gas Storage

Date-------------------

Dear Sirs

Re: Application for;
Creation of Underground gas storage facility at Preesall by Halite / Canatxx

I wish to register my objection with this letter presented by Protect Wyre Group to
you as part of their evidence to the proposal to store natural gas under the
River Wyre Estuary for the following additional reasons:--

1) Any company wishing to construct / build / gas storage project must produce evidence
to support their ability to carry out this type of construction work and have the
expertise to run contracts to the value of £300 million from development to
completion. Halite / Canatxx (American Company) has not produced reference's
from any client, company, detailing other projects started and completed over the
last 5/10 years, with their start dates completion date their ability to comply with the
specification, Health and Safety records they clearly have no history or experience of
any type of construction work within the industry for gas storage project's or building
contracts.

2) How do you assess a company on its suitability to design, construct and run an
underground gas storage facility when they have never been involved in any similar
project, we can only assume that the whole project will be sub-let to an other
contractors. Clearly a recipe for disaster.

3) The public roads cannot support additional traffic with years of construction work
that were never intended to carry this type of heavy traffic they are just rural roads and
will result in delays, repair costs to rate payers. Accidents have already happened in
the past and there are school in the area that use these roads to and from school with
all their dangers now. Halite / Canatxx are now suggesting more traffic making the
road even more dangerous.
Sheet no 2
Objections to:

Proposed Underground Gas Storage.

Conti-

4) We must learn from experience there has been leakage from under ground storage caverns similar to those in the Wyre Borough they have been recorded in America and even closer to home at Abbeystead, gas can travel through the ground due to errors within cavern’s / pipe work or whether in design or construction. The collapsing of abandoned salt mines just add to the dangers of the project. Consider also, the added threat of terrorism. There is now a law in Kansas against the storage of gas within 3 miles of communities, there is a total of 80,000 resident within 3 mile of the Wyre danger area.

5) There will be a significant impact on the estuary with the construction of pipe lines / boreholes and by the pumping of 50 million tonnes of salt / brine pump into the sea. Clearly an environmental disaster.

6) This is a quiet rural area, with many environmental concerns which have never been addressed by Halite / Canatxx.

7) Decommissioning, lack of information when gas storage has finished.

---

Mr A.V. Gibson

Address:

I do not require confirmation of my objection from (Please tick) [✓]
The Planning Inspectorate,
Temple Quay House,
Temple Quay,
Bristol,

Dear Sir,

REFERENCE PLANNING APPLICATION BY HALITE ENERGY (PREVIOUSLY CALLED CANATXX) TO BUILD THE PREEASLL SALTFIELD UNDERGROUND GAS STORAGE FACILITY

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre Estuary for the following reasons.

1. The unsuitable geology of the Preesall Salt.

2. Gas Migration Risk to Fleetwood, Thornton, and Cleveleys.

3. Gas Migration Risk to Over Wyre Villages.

4. Potential for a Well Head Explosion.

5. Evacuation of Thornton/Fleetwood Peninsula and Over Wyre.

6. The Scheme would provide a New Terrorist Target.
7. Ecological Damage from the Discharge of the Brine at Rossall.

10. Long Term Effect on House Prices and Insurance.

Additionally I would draw your attention to the activities of a UK Company called Cuadrilla PLC. They have been given permission to extract shale gas at Singleton, 4 miles or so from the proposed development at Preesall. The process used by Cuadrilla PLC is that known as “fracking”. Hydraulic Fracking is a method used to extract shale gas at very, very deep levels underground. A bore hole is drilled and then a sand, water and chemical mixture is injected into the bore hole under very high pressure. This causes the deep shale to fracture thus releasing the gas into the well so it can be brought to the surface.

“Fracking” has been carried out in various locations in the Fylde where test bores have been drilled and small amounts of shale gas have been extracted as a feasibility study. That feasibility study resulted in seismic activity in the test bores which caused two earthquakes of a minor nature centred on Poulton Le Fylde some 1.5 miles away from the drill rig.

The Government have given Cuadrilla PLC a licence to extract massive amounts of shale gas by the hydraulic fracturing method.

My argument is that should Halite Energy by given the go ahead for gas storage in the caverns to be constructed at Preesall and Cuadrilla PLC begin shale gas extraction on a massive scale, bearing in mind a few test holes caused two minor earthquakes, if a larger earthquake takes place and the caverns are breached there would be an explosion the equivalent to a nuclear device being exploded causing a major humanitarian and environmental disaster on a scale that is beyond imagination.

You can have fracking without gas storage. You can have gas storage without fracking. You cannot have both and since Cuadrilla PLC already have permission to extract gas then Halite Energy must fail in their application on public safety grounds. The application must therefore be refused.
Yours faithfully

George E.C. Shone
Barrister (Ret’d)

MONEY WEEK 11/5/2012

The return of old King Coal

The world is turning against nuclear, so where can it go for its energy needs? The only real answer is coal, says James McKeigue.

Last weekend was a watershed moment for Japan. For the first time in four decades, none of its 50 nuclear plants were operating, sending the country’s power grid back to the pre-nuclear era. The question now is, how long will it stay that way? The answer largely boils down to politics. Since the Fukushima plant was damaged in last year’s earthquake and tsunami, opposition to nuclear power has grown. As plants have shut down for new safety checks, pressure from local communities has prevented central government from turning them back on again.

Given the tragic circumstances, the opposition is understandable. Yet this leaves the Japanese government in a tricky situation. Japan has few indigenous energy resources and has had to replace the lost nuclear output with extra imports of oil, coal and gas, resulting in Japan posting its biggest-ever trade deficit earlier this year. Without nuclear power, the country is going to have to spend a lot more to keep the lights on in future.

This dilemma is by no means unique to Japan. The security of power supplies across the globe is being threatened by declining reserves of fossil fuels, concerns over environmental effects and – in the wake of Fukushima – opposition to nuclear power. The problem is particularly acute in emerging economies, where demand for electricity is rising fast. America’s Energy Information Administration (EIA) expects total global energy demand to grow by 50% between now and 2035. This is all good news for one fuel in particular: coal.

Why coal is making a comeback
Coal might seem an odd choice as a ‘fuel of the future’. It is more normally associated with the past, with steam ships and the industrial revolution. Indeed, for much of the 20th century it seemed like old King Coal was on his way out. After World War II, coal was increasingly replaced by oil in factories and power plants. By 1965, oil had overtaken coal to become the world’s most used source of energy.

Meanwhile, growing fears over climate change in the last 20 years seemed set to consign coal to the annals of energy history. Driven by concerns that greenhouse gases such as carbon dioxide are warming the planet, European politicians have set up binding legislation to curb such gas emissions. That puts coal firmly in the firing line, as the dirtiest fossil fuel – it emits twice as much carbon as natural gas. As a result, a host of older coal-fired plants are scheduled to shutdown in the next few years. Those that remain are trying to reinvent themselves. For example, Drax, Britain’s largest power plant, has started burning biomass as well.

Yet despite all this, coal has not become less popular in recent years. In fact, its total share of the world’s energy consumption is currently 30%, up from 25% five years ago. “Coal, which preceded oil and carried onward in a reduced role during the oil age, has been making a comeback over the past decade,” says American energy analyst Gregor Macdonald. By contrast, oil’s share of global energy use peaked at 48.5% in 1973, and has now slipped back to 33.5%. “Oil held a unique supremacy for over 50 years. But the king of fossil fuels was, is, and will remain coal.”

Coal’s main strength? It’s cheap – cheaper, per unit of energy produced than any other fuel apart from US shale gas. It is also abundant, with enough left in the ground to supply current demand for over 120 years. Because it is well spread out, importers are less worried about security of supply or having to deal with cartels such as Opec. Take China. As its economy has grown, energy demand has gone through the roof. It has overtaken America as the largest global energy producer.

The best ways to invest in coal
One way to play the long-term rise in coal prices is to invest in a top producer. One of our long-time favourites is US miner Peabody Energy (NYSE: BTU). When we tipped it in June 2009 it traded at $30 a share before rising to $68. Since then the slump in the coal price has dragged the share price down to $30. Yet Peabody’s earnings have risen by about 70% since then and it now looks good value on a forward price-to-earnings (p/e) ratio of 7.9.

Peabody also has Australian coal mines that allow it to serve the fast-growing Asian markets and benefit from demand in the region. Indeed, Australia now accounts for half of its earnings, up from 17% in 2007. These mines produce thermal coal, used for power generation, and the metallurgical coal needed for steel making. The latter business will struggle in a Chinese downturn, but we’d argue that this is reflected in Peabody’s share price.

Meanwhile, oversupply in the container ship market means that shipping rates are low. That allows Peabody to send its American production to Asia and Europe. Another strength is Peabody’s quality reserves in low-cost basins. As a result it has a higher profit margin than other American-listed coal miners.

Another interesting coal producer is Consol Energy (NYSE: CNX). We like the firm because it also produces natural gas, making it a double play on the growth in power demand. Both coal and gas
consumer. Unfettered by European regulations or strong environmental opposition, China has opted for the cheapest, most reliable source of energy it can find—coal.

China has vast coal reserves, as does neighbouring Mongoha, making it a secure energy supply. In the last eight years, China’s coal use has doubled: half of the coal burned in the world is now burned in China. Its miners churn out three billion tonnes of the stuff a year, making it the world’s largest producer. Yet its demand for energy is so great that last year it overtook Japan to become the world’s biggest importer too. The country might be heading for an economic slowdown, or even a hard landing, but in the longer run its energy demand will continue to grow, even if at a slower rate.

India’s coal use is also growing fast, doubling in the last 12 years. Like China, it has huge domestic reserves—the fifth-biggest in the world—and is the world’s third-largest producer. With 300 million people still without a power connection, India is desperate for more electricity and is expected to triple the number of coal-fired plants in the nation over the next decade. It has also cut coal-import tariffs, opening up a potentially valuable new market for producers.

**Unstoppable Asian demand**

“Across Asia, from Bangladesh to the Philippines, the drive for more coal-fired power seems unstoppable,” says The Economist. “Renewable energy sources, such as wind and solar generation, do not offer affordable electricity on a big enough scale. Production of natural gas, which emits less carbon, will boom but not supplant coal.” While the new growth is coming from emerging markets, the developed world is also proveing reluctant to give up coal. America still relies on coal for 40% of its electricity demand. That’s down from a 60% peak in 1985, a trend that most industry watchers had expected to continue, especially as cheap

Continued on next page

---

prices are low compared to their historical averages and should rise in the long term. Consol trades on a p/e of 14. That’s not as cheap as Peabody, but JP Morgan thinks the growth potential of the firm’s gas business warrants a higher multiple. “We believe the market is struggling to value the hybrid coal/gas company as it trades at a discount to the actual value.” The firm’s current price is $33 – JP Morgan has a $60 target price for the end of the year.

Of course, getting coal out of the ground and into power stations is a difficult, messy business. One British company that helps miners and power firms handle the stuff is Fenner (LSE: FENR). It is the world’s largest manufacturer of industrial conveyor belts. It also makes seals for the oil and gas industry and has a niche engineering services division. Fenner’s strong network of existing clients makes it less cyclical than some of its rivals – more than 60% of sales come from maintenance and repairs. Jeremy Browne at Fairfax notes that “a high % of group sales are resilient – if there is another global recession, we expect sales to remain at least steady.” The stock looks cheap on a forward p/e of 10.25.

When it comes to clean coal there are a number of small companies experimenting with ways to turn coal emissions into less harmful gas. Most are penny stocks listed in America. Make no mistake, investing in these firms is a gamble. You are betting on an unproven technology. But one firm that seems closer to achieving its goal than most is Clean Coal Technologies (OTC: CCTG). Its products treat low-grade coal (coal that has high levels of moisture and impurities) to produce cleaner coal. It has signed a partnership deal with Jindal Steel & Power, an Indian multinational with big reserves of wet, dirty coal. It also has a joint venture in China. Crucially, the firm claims that the process is energy neutral. If this is true, it means it would be a low-cost solution to the coal problem. Investing in this firm is a huge risk as it’s not making any money, but it’s worth keeping an eye on.
American natural gas was substituted for coal. But the slide in coal's share of the market recently seems to have stalled. JP Morgan analyst John Bridges believes that the trouble is that even if utilities want to switch from coal to gas, in many cases they can't because the power grid simply is not yet up to scratch. "In order to increase gas-fired power generation, additional investment in the grid is required."

Another factor that might reduce the rate of switchover is that natural gas prices, currently at a decade low, are likely to rise when liquefied natural gas (LNG) export terminals are built. These terminals, which are already under construction, will allow American producers to sell to Asia - where gas is five times more expensive - and reduce the glut of gas in America. That will make coal more competitive.

**Even Europe needs coal**

Even in Europe, coal use will prove surprisingly stubborn, says Charles Butcher in Power Magazine. Indeed, a recent study by Ecowas, a German energy consultancy, found that coal plants are set to enjoy at least a short revival in Europe. According to the report, the loss of old coal-fired plants and Germany's decision to close down its nuclear plants by 2020 will create a supply shortage. That shortage could be made worse by falling subsidies for renewable energy sources, combined with volatile gas prices. The result? Another 50 gigawatts (GW) worth of new coal plants will need to be built in Europe between now and 2020. That would be a big increase on the 10GW of coal-fired plants built between 2003 and 2011.

The environmental vote in the European Union is strong, especially in Germany. But the fact is, when it comes to keeping the lights on, there are no easy choices, says Butcher. "The years up to 2020 are forecast to see many new coal power plants being built in Europe, even as coal's share of the generating mix continues to shrink and its perception as a dirty fuel becomes more firmly fixed in the minds of the public... Europe's citizens do not like coal, but for the moment they cannot do without it."

Despite the hype renewables are still nowhere near ready to replace fossil fuels. Wind and solar power in particular have made huge advances in the last ten years, yet still provide less than 2% of the world's total energy supply. Even if they become a major source of power there is another problem. Renewable energy is intermittent and weather-dependent. Improvements in electricity storage would mitigate this fact but, for the foreseeable future at least, renewables still need to be backed by plants that can create power on demand.

So what will power those plants? Oil is becoming too expensive, and perhaps too scarce. Natural gas has a lot of potential. But the 'shale gas' revolution - driven by new drilling techniques - has yet to spread from America to Europe and Asia, where gas remains more expensive than coal per unit of energy produced. As for nuclear energy, it's reliable and efficient, but, as Fukushima has demonstrated, it has the potential to go horribly wrong.

Even those countries that want to invest in nuclear, such as Britain, are struggling to do so. Although uranium - the fuel source - is very cheap, nuclear plants themselves are incredibly expensive to build, accounting for around 60% of the total cost of power produced, compared to about 14% for a gas plant. Over a long life, nuclear plants can often work out cheaper, but the need for lots of cash up front is a challenge in the heavily-indebted West. All of this means that coal is likely to be with us for some time to come. In the box on page 24 we look at the best ways to invest in this unfashionable fuel.

**Cleaning up coal**

Given that coal is abundant and cheap, the ideal solution to our energy needs would be to make it environmentally friendly too. The Holy Grail of 'clean' coal is carbon capture and storage (CCS). This pipes the emissions that leave a coal-fired plant into a large underground space, such as a depleted oil reservoir. That way we can burn coal without the unwanted side effects.

However, while the process has worked in the laboratory, it is yet to find commercial success. Aside from technical difficulties, the main problem is economics. For now, there is no economic incentive for coal plants to invest in such costly technology. The EU has tried to encourage investment by putting a price on carbon emissions. But carbon permit prices are trading at around €7 each, about a quarter of what advocates think is needed to encourage investment. Here in Britain the government is introducing a tax to raise the price of carbon emissions between 2013 and 2030, but CCS is a long way from being attractive.

Clean coal's best hope may lie instead with China. Carbon emissions aren't the only environmental hazard coal produces. Coal stations create solid waste, such as ash and toxic sludge, while mining the stuff can devastate landscapes and pollute water tables. Burning coal creates smog, soot, acid rain and toxic gasses. While modern scrubbers and filters have improved what comes out of chimneys, it is still hardly fresh air.

China's addiction to coal means it has some of the worst air pollution in the world. According to the World Health Organisation, 16 of the world's 20 cities with the worst air pollution are in China. Only 1% of China's 600 million city dwellers breathe air considered safe by European standards.

This has become a serious political issue in China: pollution is by far the biggest cause of protests. China may not be a democracy, but it wants to keep its middle class happy. So just as Chinese living standards are catching up in terms of TVs, cars and holidays, quality of environment should follow. That in turn could open up an exciting market for clean coal technology.
Having developed Rosegrove Caravan Park over the last 40 years and having invested a lifetime of work and a million pounds doing so, we are literally devastated to ever consider the whole tourist industry in this area being literally wiped out by this planning application.

Personally my family and I would not want to continue living in this area, so what chance is there of asking people to invest in a holiday home here when such a massive, and potentially catastrophic gas storage facility is being developed in a geologically well known unstable location, not to mention it being subject to small earth tremors caused by the recently sanctioned gas fracking industry.

This area is heavily dependent on the leisure industry and we are already being questioned by our customers with regards to the dangers of the development, many of whom are already reconsidering investing in a holiday home with us in this area.

This company, be it Canaxx or Halite has already attempted to buy up other caravan parks and remove obstacles in its way, including MP’s etc and carries on reapplying and submitting new applications as though the end result is a foregone conclusion.

This area and people’s lives should not be ruined by allowing such an outrageously dangerous proposal to be allowed, so close to a densely populated area of such natural beauty.
Dear Sirs

Presell Saltfield Underground Gas Storage

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register **my objection** to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

- The Unsuitable Geology of the Presell Salt
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- Gas Migration Risk to Over Wyre Villages
- Potential for a Well Head Explosion
- Evacuation of Thornton / Fleetwood Peninsula & Over Wyre
- The Scheme would provide a New Terrorist Target
- Ecological Damage from Discharge of the Brine at Rossall
- Destruction of Countryside and Wild Life
- Impact on Recreational Use & Landscape
- Long Term Effect on House Prices and Insurance

**Comment:**

> This would *if* granted make us have serious consideration for our safety. It must move to another area.

Dear Sirs,

Re: Reassall Saltfield Underground Gas Storage.

I am requesting the Protect Wyno Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the Wyno estuary for the following reasons:

- The unstable geology of Reassall Salt
- Gas migration risk to Fleetwood, Thornton Cleveleys, and Over Wyre villages
- Potential for a wellhead explosion
- Evacuation of Thornton/Fleetwood Peninsula & Over Wyre
- The scheme would provide a new terrorist target
- Ecological damage from discharge of the brine at Reassall
- Destruction of countryside and wildlife
- Impact on recreational use & landscape
- Long term effect of house prices & insurance

Should this be granted I would have no alternative but to seek to move from the area that is how dangerous I feel this proposal is.

Yours sincerely,
Dear Sirs,

**Preesall Saltfield Underground Gas Storage**

Hostility to gas storage plans still ‘high as ever’

By RICHARD HUNT

Canaxx’s controversial move to put salt caverns under the River Wyre are less welcome than ever, says a campaigner against the scheme.

Project Wyre Group member Ian Mulroy says there are now more gas storage schemes in the UK than there were five years ago.

He says the increasing availability of gas supplies may prove an effective weapon in killing off the Wyre scheme.

Energy firm Canaxx plans to store 1.2 million tonnes of gas in salt caverns under the River Wyre, roughly halfway between Fleetwood and Freesial.

Mr Mulroy said: “Many of these gas storage schemes are not nearly as controversial as this Canaxx scheme here.”

“I am hoping that when it comes down to it, there is seen to be less of need for this scheme now than a few years back.”

Canaxx’s proposals have been the subject of a public inquiry and a decision will ultimately be made by Local Government Secretary, Ruth Kelly, who decides after reading the planning inspector’s report.

That decision is expected any-time up to mid-October.

Mr Mulroy said there had been no sign yet that any decision was imminent.

But he said: “You never know with these things.”

Campaigners say there are major safety concerns about the plans but Canaxx insists the scheme would be perfectly safe.

Meanwhile, Canaxx says its plans to site a huge liquefied natural gas terminal on Anglesey will have no major bearing on its Wyre proposals.

Some local people had hoped that if the Welsh plans were knocked back by Anglesey Council, who have yet to make a decision, it could severely undermine Canaxx’s plans for Wyre.

But a Canaxx spokesman said this week: “It won’t affect what we do in Wyre because we are not reliant on receiving gas from Anglesey, although there may be plans to pump some gas down an underwater pipe much further down the line.”

Anita Cronshaw (Mrs)
I do not wish to stand in the way of progress but we need to be 100% certain that the gas storage proposition is completely safe and of some benefit to the community. As we only have "experts" opinions and no proof that what they are saying is indeed the truth. Why are Halite, an Amerivan company, here? I don't think that they feel an urge to be charitable to a community 3000 miles away from home. What I do think is that they envisage large profits so how will they be distributed? Will the local economy receive any of it? We must not lose sight of the fact that American business ethics do not carry the same morals as our own----consider the Kraft/ Cadbury's scam.
If the scheme falls apart before completion what safeguards do we have to prevent the company abandoning ship?

Dear Sir

Creation of Underground Gas Storage Facility at Preesall by Halite / Canatxx

I wish to register my objection to the proposed storage of natural Gas under the Wyre Estuary with this letter presented by Protect Wyre Group as part of their evidence to the proposal to store natural Gas under the river Wyre estuary for the following reasons:

1) Over Wyre countryside concerns there will be significant impact on the environment, wild life, the general well being of the area, and the discharge of brine into the sea will kill any sea bed life for many years.

2) Environmental concerns, pipe bore holes. Collapsing of old salt mines Birds and habitat of the Wyre Estuary

3) Inadequate technical information on blow out of existing well head, collapsing of abandoned mines.

4) Not complying with known Safety Laws not to build in residential areas, with the risk of gas leakage, explosion, Terrorism.

5) Emergency services, Fire Brigade, Police and Hospital are all village services and could not provide cover in emergency situation.

Comment:‡ Plus Potential Stagnation of the Housing Market with people unable to move out of the area. With the move towards green energy or nuclear this scheme could be redundant before it begins.

□ N M Parry
Dear Sirs

Presell Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

The Unsuitable Geology of the Presell Salt strata.
At a public exhibition by Halite it was apparent that the testing of the suitability of the salt beds was carried out by very limited-scale “sampling”; and the true nature of the strata is still very little understood.

Gas Migration Risk to Fleetwood, Thornton & Cleveleys and the Over Wyre Villages
The strata are known to be fractured by many faults and, in the 28 years I have lived here, I have been aware of several minor earthquakes. Most recently were the two earthquakes attributed to the fracking exploration near Singleton which were felt in Hambleton. In addition to the natural faults, there is now a major sewage pipeline which links Fleetwood with the Fylde Coast communities as far as South Shore, providing a major potential conduit for leaking gas. Just the fear of this could have a devastating impact on Blackpool’s tourist industry.

Evacuation of Thornton / Fleetwood Peninsula & Over Wyre
In the event of a major emergency it would be impossible to evacuate the population along the restricted transport routes in a short time, thereby giving rise to a major catastrophe. If the population of the conurbation of Blackpool is taken into account the problem is increased exponentially.

Other concerns are summarised as:
Ecological Damage from Discharge of the Brine at Rossall
The Destruction of Countryside and Wild Life
The Impact on Recreational Use & Landscape
The Long Term Effect on House Prices and Insurance, and stagnation of the housing market effectively trapping people in the area.
The Potential for a Well Head Explosion
The Scheme would provide a New Terrorist Target
And Finally, Legacy
When the gas has finally run out and the gigantic caverns are no longer needed, what are Halite’s plans for decommissioning? I put this question to the Senior Halite manager at their exhibition and, it would appear, there are NO plans. This is the mentality of the Victorian colliery owners who created thousands of slag heaps without thought for the future. The future, in one instance, was the Aberfan disaster in Wales.

In Conclusion
It is said that, at present, the country could benefit from increased capacity for gas storage. However, gas is a precious but highly dangerous commodity which must be contained in a storage facility which is 100% secure. The Halite proposal, just like Canatxx before, cannot provide any such cast-iron guarantees. There have been no significant changes from the previous three applications which were rightly refused at all levels, from residents to Government, and should be refused again. The Plan is environmentally and socially destructive, and presents a significant risk to the safety of a large population, not only now but for generations to come!

Yours faithfully,

E.N.M. Parry
11th May 2012

Jin

Please include my objection to the storage of DANGEROUS gas near to my parents' home in Hamilton.

Yours truly,

GLENN H. McQUIRE
As one who regularly walks in
the area of the proposed gas
storage,
In view of all the work
that has been carried out and land
that has been taken over with
warming signs everywhere, both
for Conatex and Malite Energy,
Could it be possible that they
have already been given the
go-ahead?
If not, it is a bit like putting
the cart before the horse.
Who or what is going to ensure
that these chambers that are being created
have no faults and can actually
store gas under pressure?
I have been involved with
the welding and fabrication of

P.T.O
whole lakes have been created with the collapse of salt mines. Also the tragedy at Aberystwyth where methane gas travelled some distance to surface and explode with injuries and loss of life. Could it be possible that the main driving force for this project for hy branther - Halite Energy is money and profit?
Dear Sirs

**Preesall Saltfield Underground Gas Storage**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

1. The Unsuitable Geology of the Preesall Salt
2. Gas Migration Risk to Fleetwood, Thornton & Cleveleys
3. Gas Migration Risk to Over Wyre Villages
4. Potential for a Well Head Explosion
5. Evacuation of Thornton / Fleetwood Peninsula & Over Wyre
6. The Scheme would provide a New Terrorist Target
7. Ecological Damage from Discharge of the Brine at Rossall
8. Destruction of Countryside and Wild Life
9. Impact on Recreational Use & Landscape
10. Long Term Effect on House Prices and Insurance

Comment:- I believe all of the above are good reasons why the proposed scheme should not be carried out. In particular Nos 3 and No 7. It is not a good idea to use the Irish Sea as a convenient dumping ground. Is there not enough pollution around our shores? Also I do not think a company born on the other side of the Atlantic will have the best interests of the local population in mind.

Signed: __________________________ Name (please print) Mr John Keith

Address: ____________________________
I wish to object to gas storage at Preesall. I was living at Preesall when the last subsidence happened. It was frightening. I hope it won't happen again if they start interfering with the underground caverns. I had relations who worked down the mine. We were told that they left pillars of salt to hold it up if they start washing these out what is going to happen. There are so many people living near it.

Yours faithfully
I wish to object to gas storage having lived in Pressall all
the for a number of years. I don't think the area so suitable I think it
to dangerous.

Yours faithfully
Dear Sirs

☐ Impact on Recreational Use & Landscape
☐ Long Term Effect on House Prices and Insurance

Comment:— Sirs may I give you the opinion of my Son, a mining geologist, now working in Brazil, developing the gas/oil reserves. He was in the UK when the Last Planning request by Canzower was made and observed that the very suspect geology combined with regular small earthquakes would make this development absolutely IMPOSSIBLE in the USA.

Signed: [Redacted on behalf (please print)] Ben Walters
Address: [Redacted]
Dear Sirs

Preesall Saltfield Underground Gas Storage

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please

☐ The Unsuitable Geology of the Preesall Salt
☐ Gas Migration Risk to Fleetwood, Thornton & Cleveleys
☐ Gas Migration Risk to Over Wyre Villages
☐ Potential for a Well Head Explosion
☐ Evacuation of Thornton / Fleetwood Peninsula & Over Wyre
☐ The Scheme would provide a New Terrorist Target
☐ Ecological Damage from Discharge of the Brine at Rossall
☐ Destruction of Countryside and Wild Life
☐ Impact on Recreational Use & Landscape
☐ Long Term Effect on House Prices and Insurance

Comment: - As a local Firefighter in the Wyre area I know the devastation of human error. If human error was to blame for any incident involving gas of this magnitude the Fire and Rescue Service does not have adequate resources to deal with this type of incident.

Signed: [Name (please print)]
Address: [Address (please print)]
Dear Sir or Madam,

I would like to object to Halite Energy proposed scheme to store natural gas under the River Wyre estuary.

I have a number of aspects that concern me:

- The safety of such a large amount of gas stored close to where I live.
- The wildlife on the site of Special Scientific Interest & Marine Life.
- The destruction of our country lanes.
- The pollution of all the construction works noise.

Our beautiful countryside and fauna will suffer greatly by all aspects of Halite Energy Proposed

Yours Sincerely

P.S. I am requesting the Protect Wyre Group to present this letter to you as part of their evidence.
To whom it may concern,

I wish to object to the proposed storage of gas in this area. I am writing on behalf of my elderly relatives. They are extremely worried by these proposals, as they live less than one mile away from the storage site. They are too old to consider moving from this area. Who would wish to buy a property in this position anyway?

Yours Truly,
Dear Sir,

I am writing on behalf of my grandparents. They are both extremely worried by the proposed plans to store gas on this site which is planned for storage. It is now suggested that an additional risk could be from the sewerage pipe which runs along the coast from Fleetwood into Blackpool. The whole scheme borders on madness! What more warning do they need?

Yours Truly,

(Grandson)
10th May 2012

To the Organiser

G. A. W. G. -

Will you please include my objection to the storage of explosive and dangerous gas in the ground less than a mile from my parents' home as shown above.

Yours truly

[In2.27]
The Planning Inspectorate  
Temple Quay House  
Temple Quay  
Bristol BS1 6PN

1 May 2012

Dear Sirs

**Freesail Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

**Gas Migration Risk to Over Wyre Villages**

My concern with this submission as with previous submissions is safety. The area has been used for centuries for salt extraction using various methods. There is a mix of caverns and collapsed caverns compounded by a lack of records of what has been done.

One occurrence of subsidence that I know about during the time I have lived at Stalmine is at a farm called Aggiebey's where the farm track to the shore is now blocked by a large pool. This subsidence is alarmingly close (tens of metres) to the "safe" areas designated by Halite. This is just one example of the nature of the ground that I have witnessed for myself.

Halite do not know where everything lies under the ground as indicated by their statement: "We have conducted extensive studies to identify two areas which are suitable for gas storage and far away from any known hazards such as faulting and old mine workings".

If Halite were truly confident they would omit the word "known" and until they are prepared to, they are admitting the possibility of an unsafe installation.

PETER BECKETT
Dear Sirs

Præsall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Gas Migration Risk to Over Wyre Villages

My concern with this submission as with previous submissions is safety. The area has been used for centuries for salt extraction using various methods. There is a mix of caverns and collapsed caverns compounded by a lack of records of what has been done.

One occurrence of subsidence that I know about during the time I have lived at Stalmine is at a farm called Agglebeys where the farm track to the shore is now blocked by a large pool. This subsidence is alarmingly close (tens of metres) to the "safe" areas designated by Halite. This is just one example of the nature of the ground that I have witnessed for myself.

Halite do not know where everything lies under the ground as indicated by their statement: "We have conducted extensive studies to identify two areas which are suitable for gas storage and far away from any known hazards such as faulting and old mine workings".

If Halite were truly confident they would omit the word "known" and until they are prepared to, they are admitting the possibility of an unsafe installation.

BARBARA BECKETT
Dear Sirs

I wish to strongly object to the underhanded way that CANATXX are trying to get their latest planning application passed. With no holds barred they are trying to con people into believing that what they propose is in our interest and that there is no danger to the residents of Wyre and surrounding areas.

Do they think us Brits are daft or something??? For we all know that they are not doing this project for our health or welfare but to line their own pockets and to hell with what we think.

This planning application has had a good airing and has been thrown out once, and I see nothing in what they say to change my mind now or in the future so throw it out again and let this be the last time we hear anymore about this stupid application.

I strongly urge you to send them on packing on their way back to America if need be for there is no room here for proposals idiots like them.

From a dedicated protester
Mr G Parkinson
Dear Mr. Mudroy,

I filled in a form but did not put anything in the comment box. However, after thinking about things I would like to comment as follows:

Because the Company is still awaiting the results of tests formerly advised to be carried out by the Ministry, when they come up with the results will there be enough time to digest the results and possibly formulate any questions which may need to be answered.

Is the company trying to find a back way in by changing its name as they hoping that people will be hoodwinked into thinking that it is a brand new company.

As the "fracking" appeared to cause minor tremors if gas is stored and a tremor was caused surely there could be major consequences.

Yours faithfully
Dear Sir

I am writing to express my concern over the proposed Gas Storage Facility near Presall. I think the proposals are dangerous and should not be allowed by the County Council or Government.

The heat of combustion of methane is about 800,000 Joules/mole; 50,000J/gram or 50 Gigajoules/tonne -- that is 50,000,000,000 Joules.

The proposal is to store 2 million tonnes of methane; this equates to 100 million Gigajoules -- about $10^{17}$ Joules of energy. The proposal is to store an energy resource equivalent to several nuclear bombs within a three mile radius of 100,000 people. It is no wonder that USA state law forbids the building of similar facilities and depressingly ironic that a US Company is trying to make a profit whilst putting English lives at risk. One of my colleagues was killed at Abbeystead 25 years ago when methane gas exploded in an underground water storage cavern with the loss of several lives and this proposal to store millions of tonnes of the same gas in underground caverns is a dreadful mistake.

The cost in energy terms of constructing the storage facility and the financial cost would be better spent on improving insulation in homes and in developing alternative ways of harnessing energy.

Quite apart from the danger associated with storing flammable gases at high pressure there will be incalculable damage to the environment, for example during construction, the disposal of waste salt into the sea and the disposal of waste materials from the existing wells.

I note the Government has given the go ahead for fracking to re-start in Singleton -- a process that has already caused two earthquakes in the local area. Will the salt caverns withstand earthquakes or is this not part of the risk assessment?

Yours faithfully

David O Slack

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
this scheme was rightly turned down on previous occasions as it is totally unsuitable for this site and surrounding area. It must be dismissed again and finally so that all locals can feel safe in their homes.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✓

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
I don't want our nice local area destroyed by greedy Americans.

Dear Sirs

Presell Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please ✔

[X] The Unsuitable Geology of the Presell Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment: Why does this company get to waste so much resource on planning committees time when it's been rejected 3 times already, surely the past evidence is enough to throw out this latest application?

- [X] Potential for a Well Head Explosion
- [X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- [X] The Scheme would provide a New Terrorist Target
- [X] Ecological Damage from Discharge of the Brine at Rossall
- [X] Destruction of Countryside and Wild Life
- [X] Impact on Recreational Use & Landscape
- [X] Long Term Effect on House Prices and Insurance

Comment:
I do not wish to live under the threat that this creates, whether natural or terrorist generated - I am scared. I will move right out of this area if this scheme goes ahead- I will not stay here with my family.

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- [X] The Unsuitable Geology of the Preesall Salt
- [X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- [X] Gas Migration Risk to Over Wyre Villages
- [X] Potential for a Well Head Explosion
- [X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- [X] The Scheme would provide a New Terrorist Target
- [X] Ecological Damage from Discharge of the Brine at Rossall
- [X] Destruction of Countryside and Wild Life
- [X] Impact on Recreational Use & Landscape
- [X] Long Term Effect on House Prices and Insurance

Comment:
Whilst I understand the need for a storage - the question is, is this the correct place for such a facility? Worse case scenario - can you guarantee the safe evacuation of the local population within 3 miles?

[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I object strongly to the storage of gas under the Wyre estuary, and also to any further attempts to consider this to be highly dangerous to residents of the Fylde Coast. I will leave the area if permission is granted.

Dear Sirs,

I am requesting that the Protest Wyre Group to present this letter to you as part of their evidence as I feel to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons:

- The Unsuitable Geology of the Presall Salt Field
- The Scheme would provide a New Terrorist Target
- Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- XGas Migration Risk to Wyre Estuary
- Ecological Damage from the Discharge of the Brine at Rosall
- Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- XPotential for a Well Head Explosion
- XImpact of Recreational Use & Wild Life
- XLong Term Effect on House Prices and Insurance

Comment:
Safety is a major factor. If we need gas storage why can we not fill up the offshore well that is almost empty?

Dear Sirs

**Presell Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Presell Salt
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

**Preston Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please [ ]

[X] The Unsuitable Geology of the Preston Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
There is a considerable risk due to the relatively high levels of population. Along with the increased seismic activity due to the shale gas drilling.

Comment:
What right does a foreign company have to come into such a beautiful area and devastate it for the residents and the wildlife that live there, all in the name of money. Disgusting!

Dear Sirs

Prestige Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Prestige Salt Field
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Wellhead Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

[X] Gas Migration Risk to Over Wyre Villages
[X] Potential for a Well Head Explosion
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[X] The Scheme would provide a New Terrorist Target
[X] Ecological Damage from Discharge of the Brine at Rossall
[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I would like to object to the latest proposal to store gas in underground caverns under the River Wyre/Fleetwood/ Preeceall areas as the the proposal threatens the existance of the environment and the population

Dear Sirs

Preesall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

- [X] The Unsuitable Geology of the Preesall Salt
- [ ] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
- [ ] Gas Migration Risk to Over Wyre Villages
- [X] Potential for a Well Head Explosion
- [ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
- [ ] The Scheme would provide a New Terrorist Target
- [X] Ecological Damage from Discharge of the Brine at Rossall
- [X] Destruction of Countryside and Wild Life
- [ ] Impact on Recreational Use & Landscape
- [ ] Long Term Effect on House Prices and Insurance

Comment:
Given the recent history of explosion in the area with loss of life due to underground gas, pointing to inability of authorities to have adequate detailed knowledge of local geology, this seems rash and unwise.

Dear Sirs  

Preesall Saltfield Underground Gas Storage.  

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.  

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Dear Sirs

**Preesall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[X] The Unsuitable Geology of the Preesall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

**Comment:**  
The overwhelming scientific evidence, regarding the geological unsuitability for storing natural gas here, presented to object to previous applications has not changed so why is this even being considered?

Dear Sirs

**Preeall Saltfield Underground Gas Storage.**

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

Please:

[X] The Unsuitable Geology of the Preeall Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:  
I have two small children and I want them to grow up safely. There is enough to worry about in this world, without the added stress of a potential explosion close by. Just store it where it originated from.

Dear Sirs  

Preesall Saltfield Underground Gas Storage.  

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.  

[ ] The Unsuitable Geology of the Preesall Salt  
[ ] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[ ] Gas Migration Risk to Over Wyre Villages  
[ ] Potential for a Well Head Explosion  
[ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[ ] The Scheme would provide a New Terrorist Target  
[ ] Ecological Damage from Discharge of the Brine at Rossall  
[ ] Destruction of Countryside and Wild Life  
[ ] Impact on Recreational Use & Landscape  
[ ] Long Term Effect on House Prices and Insurance  

Comment:  
Please can we have an end to this ludicrously dangerous scheme. It has been dangerous from the start and still is. The fracking that is taking place nearby adds another dimension to the insanity of it all.

Precsall Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons.

[ ] The Unsuitable Geology of the Precsall Salt
[ ] Gas Migration Risk to Fleetwood, Thornton & Cleveleys
[ ] Gas Migration Risk to Over Wyre Villages
[ ] Potential for a Well Head Explosion
[ ] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre
[ ] The Scheme would provide a New Terrorist Target
[ ] Ecological Damage from Discharge of the Brine at Rossall
[ ] Destruction of Countryside and Wild Life
[ ] Impact on Recreational Use & Landscape
[ ] Long Term Effect on House Prices and Insurance

Dear Sirs

Prestwood Saltfield Underground Gas Storage.

I am requesting the Protect Wyre Group to present this letter to you as part of their evidence as I wish to register my objection to the proposed scheme to store natural gas under the River Wyre estuary for the following reasons:

[X] The Unsuitable Geology of the Prestwood Salt  
[X] Gas Migration Risk to Fleetwood, Thornton & Cleveleys  
[X] Gas Migration Risk to Over Wyre Villages  
[X] Potential for a Well Head Explosion  
[X] Evacuation of Thornton / Fleetwood Peninsula and Over Wyre  
[X] The Scheme would provide a New Terrorist Target  
[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
I grew up in and have run field trips in this area. It has enormous ecological value. The Proposal poses human risks from geological instability and threatens damage to estuarine and marine protected areas.

[X] Ecological Damage from Discharge of the Brine at Rossall  
[X] Destruction of Countryside and Wild Life  
[X] Impact on Recreational Use & Landscape  
[X] Long Term Effect on House Prices and Insurance

Comment:
As a regular visitor to the Over-Wyre area to see my parents I object to these plans to site gas storage so close to residents. My concerns relate to the impact on me and my family when visiting and my parents.

[X] Destruction of Countryside and Wild Life
[X] Impact on Recreational Use & Landscape
[X] Long Term Effect on House Prices and Insurance

Comment:
I honestly feel truly threatened and frightened at the prospect of having all that gas stored so close to our homes. No one can say that it is safe as no one knows 100% what is underground in this area.
