By Courier

Dear Mr Carpen

Planning Act 2008
The Infrastructure Planning (Examination Procedure) Rules 2010
Proposed Underground Gas Storage Facility at Preesall, Lancashire
Halite Energy Group Limited
Reference EN030001
Halite Examination Document Reference – H18

Representations from Protect Wyre Group

I note that the responses to the PWG questionnaire were finally uploaded onto the PINS website for the Halite Project towards the end of September. Until this point, Halite had not had sight of these.

I write simply to confirm that Halite do not propose to comment on the responses to the questionnaires directly and we assume that if the Examining Authority had any particular questions it wished to raise in connection with them, these would have been raised by the Examining Authority in its further round of questions to Halite or at some other point during the Examination. Halite did of course make comments on PWG’s Written Representation which summarised the responses to the questionnaire.

Yours sincerely

Paul Grace
